## THE HISTORY OF THE NOLAN GROUP

Great companies are born out of great passion.

The Nolan group began in 1972 when Lander Nocchi – an enthusiast and entrepreneur in motorcycle accessories – decided to make motorcycle helmets that would be *lighter, safer and more affordable than comparative products*. He sourced a plastic material called Lexan, which proved to be *lighter, more versatile, and stronger* than other plastics on the market.

Over the next 40 years Nolan built a reputation as the *leading innovator in helmet feature & design*, offering the *best feature / quality / price ratio*, and is now regarded by customers and competition brands alike as *one of the world leaders in helmet manufacturing*, and offers a benchmark of quality that other brands envy.

## THE X-LITE BRAND

In 1998 the *Nolan Group* expanded to create the X-Lite brand. X-Lite combines all of the technology & innovations of Nolan, but only makes Composite Fibre helmets. Nolan built a completely specialised manufacturing plant to combine the most advanced manufacturing techniques & machinery with the hands-on craftsman's care & skills that are required to produce the highest quality Composite helmets.

Each X-Lite composite shell is *hand laid* with Carbon, Kevlar, glass, & other special materials, laid in specific patterns & sections of the helmet shell to cope with different impact areas, & different standards testing. This process provides the *best balance between shell lightness, shock absorption, and penetration resistance*.

\* There are some crossover Nolan helmets that use X-Lite Composite shells. Each of these models are designated with an 'X' in the part number.

Wooden helmet mould

Early N-09

80's Nolan N-35 J5W

## NOLAN / X-LITE RACING

Nolan and X-Lite have a continual list of team riders in all elite levels of racing. The most obvious of these are world champions **Casey Stoner, Jorge Lorenzo, Carlos Checa, & Marco Melandri**.

Thanks to the specialised Nolan technicians that work in support of their professional riders, many ideas are created, tested and implemented onto production helmets thanks to race track experiences and extreme testing in race situations.

## 100% MADE IN ITALY – BY NOLAN

*ALL stages of helmet design and manufacture are managed within the Nolan group – not by subcontractors like other brands.*

Nolan source *nothing but the best quality raw materials to manufacture their products*. They then produce each component of their helmets to their *precise quality standards* on their *state of the art machinery*, then assemble and package the final product. This 100% control of the product ensures that each Nolan and X-Lite helmet come together to provide *quality, fit and finish that are a cut above the rest*.

The Nolan & X-Lite manufacturing plants are *environmentally friendly*, and utilise nothing but the best and most advanced machines and techniques available. They use computer aided designs & machines for tool/mould making, have automated climate controlled painting conveyor lines, and use several robotic arms to sand moulding marks from shells, and even to accurately guide precision high pressure water jets that cut eye ports and vent holes in Composite shells. *Outstanding technology and procedures makes outstanding helmets!*

## NOLAN TESTING

Nolan test all components of their products through wear tests on specially designed robotic 'torture machines', rigorous crash testing in their state-of-the-art crash lab, and extensive road and race testing, and even have a special Optical Lab to test the quality of the visors they produce.

For example, Nolan visor mechanisms are tested with over 15,000 open/close cycles on a robotic arm, and then the components are re-tested for quality and function.

## 5 YEAR WARRANTY!

After making and assembling every part of their helmets in house, Nolan have the confidence to provide an *outstanding 5 year warranty* (from date of purchase) on any material or production defect. You can be confident that your customer will get a long and happy life from their Nolan Helmet!

Composite shell cutting

Robot sander

*Nolan* uses special robots to sand and cut shells for perfect products every time.

**NOLAN**  
More Than Just a Helmet.

**X-lite**  
performance helmets

Advanced features = Advanced function.

Countless hours of testing are done in Nolan's hi-tech crash labs.

Extensive structural testing is performed on helmet shells in Nolan's state-of-the-art testing labs to find the best combination of safety & weight.

Nolan's Multi-Density EPS liners are designed in conjunction with the helmet shell to find the optimum thickness & density for the best possible shock absorption and helmet weight.

Nolan's VPS Systems offer enhanced vision, versatility and safety.

## ADVANCED DESIGN FEATURES

Nolan are constantly at the forefront of innovative helmet design, advanced features and accessories. They have pioneered many designs and features like their N-Com integrated communications systems, advanced mechanisms on Flip-Up & Multi-Configuration helmets, & VPS tinted half visors to name a few. Along with designing each vent, feature and mechanism on their helmets to provide a visually pleasing design, quality of function and long component life are simply outstanding.

## NOLAN LEXAN SHELLS

Injection moulded *Lexan resin* is used to make Nolan helmet shells. This product was chosen as it provides far superior impact resistance, structural integrity, & lighter weight than all other forms of polycarbonate used in the manufacture of helmet shells. Lexan is the best option for day-to-day helmet use.

\* Lexan is also used in many other high impact applications like bullet proof glass and riot shields.

Nolan start with the highest quality raw materials, then use their testing labs and make countless prototypes to design & manufacture each Lexan helmet shell specifically to suit our standards testing specifications. By designing the helmet shell & EPS liners in conjunction, Nolan can use the best combination of thickness & density of each part to provide optimum safety, shock absorption, penetration resistance, & overall helmet weight.

When used in conjunction with Nolan's specifically designed Multi-Density EPS liners, Nolan Lexan shells offer safety levels that surpass fibreglass helmets and are only matched by the very best composite helmets.

Nolan shells are painted with special ecological water based paints, high quality decals are applied, & then a special Hi-Brite protective coating is applied to provide better durability & longer colour life.

## EPS LINERS

The EPS liner has an *absolutely massive roll in shock absorption* and disbursement, and is actually more important than the shell when dispersing the shock from an impact.

Nolan design & manufacture the EPS (Expanded Polystyrene) liner for each size in each helmet model specifically to suit our Australian standards testing specifications.

By starting from raw polystyrene of only the highest quality & using multiple densities in different sections of the liner to cope with different forces that occur during crashes, the end result is a liner that offers the optimum thickness & density to provide the best shock absorption & dispersion, impact resistance, weight, & helmet fit.

## VISORS

### VPS Tinted Half Visor Systems

Nolan were the first motorcycle helmet manufacturer to utilise a VPS (Vision Protection System) tinted half visor, and it has now become a highly valued feature in modern helmet design.

Nolan's VPS systems offer the rider an option to have a tinted visor with just the flick of a lever – no carrying spare visors or stopping to change them. Nolan VPS Systems are made from high quality Lexan OQ, and are SR (Scratch Resistant) & FR (Fog Resistant).

### Nolan Visor Quality

Nolan manufacture their visors from high quality Lexan OQ resin to provide higher safety levels and a longer visor life. They offer UV protection of 400 nanometres (clear visor), and have a special SR (Scratch Resistant) coating on both sides to provide an even longer visor life.

Nolan visors are available in Clear, Dark Tint, Mirror, and Iridium Blue.

### Anti-Fog Systems

Nolan visors are ready for Nolan's NFR Anti-Fog visor inserts to provide fog-free use in & safety in all conditions.

\* Most Nolan helmets are supplied with an NFR insert for free (\$35 value).

## N-COM COMMUNICATION SYSTEMS

Nolan were the first helmet manufacturer to offer a fully integrated communication / multi-media system for their helmets. By offering several different components that are compatible with each other, Nolan's N-Com systems can be adapted to suit each rider's personal needs.

- Bluetooth to passenger or bike to bike.
- Rider to passenger by cable.
- Mobile phone connection by Bluetooth or cable.
- Connection to Sat Nav systems, other Multi-Media & music sources by Bluetooth or cable.

\* Further information on N-Com systems is available in the following pages.

## NOLAN VENTILATION SYSTEMS

Depending on the application of the helmet, Nolan ventilation systems utilise 3 main features – Chin vent, Top vents, and Extraction vents.

- **Chin vents** effectively convey air directly to the visor to reduce fogging, & also create fresh air in the helmet.
- **Top vents** are positioned on the 'brow' of the helmet just above the visor, or at the top of the helmet (or both). Nolan utilise air channels within the helmet's EPS lining to distribute air to multiple points to avoid local cooling.

Some Nolan helmets utilise Nolan's JSW system which takes air in at the front of the vent, and expels it through the back of the vent creating a Venturi effect, pulling hot / stale air from the helmet.

- **Rear Extraction vents** are utilised on some models to further promote internal air flow. They work in conjunction with internal channelling in the EPS liner and Clima Comfort liner to enhance the removal of hot / stale air.

## CLIMA COMFORT LINERS

Nolan's research and development of helmet liners has utilised every-day road testing, information from their race teams, wind tunnels and telemetric data machines to measure helmet movement in order to find the best liner materials and densities.

The final results are liners that are made with premium hypoallergenic materials, the optimum density support padding materials, and the best quality breathable surface linings to provide comfort in all conditions.

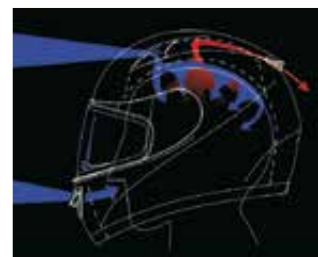

Sections of some liners are also bonded by a special UHF thermo-welding to replace stitching in some areas to further improve comfort.

All components are treated with a special Sanitised anti-bacterial treatment to maintain freshness, fit and feel and a longer lasting liner life.

Liners on most Nolan helmets are also easily removable & washable, further enhancing comfort & liner life.

Nolan's integrated N-Com communication systems allow the rider to speak to other bikes or passengers, and connect to phones and multi-media devices.

*Effective Intake and Extraction vents provide comfort in all conditions.*

*Only premium Hypoallergenic materials are used in Nolan's liners.*

# X-602

## Full Face

Composite Fibre

Hi-Tech hypoallergenic microfiber lining materials derived from race team testing for breathability & long lasting fit and feel.

- 100% Italian made Quality.
- Massive 5 year warranty.

**SHELL** – Hi-Tech composite fibres, hand laid with each material in specially defined areas for the optimum combination of shock absorption and lightest possible shell weight.

**3 SHELL SIZES** – (XSM>SML, MED>LGE, XLG>XXL) to ensure lowest possible shell size for helmet weight, aerodynamic drag, & better fit.

**HIGHLY AERODYNAMIC SHELL**, designed with the use of extensive wind tunnel testing.

**MULTI-DENSITY EPS STYRENE LINER** to provide the best shock absorption & safety levels, & maintain the best helmet size & weight.

**REMOVABLE / WASHABLE CLIMA COMFORT LINER** uses high tech hypoallergenic microfiber materials derived from race team testing to provide high breathability, sweat expulsion & comfort, with low levels of foam compression. It is also treated with a special anti-bacterial treatment for a longer lasting freshness, fit and feel.

**ADVANCED DUAL TOP VENT SYSTEM** provides optimal air intake to feed multiple internal channels which spread the cool air through the helmet, & single rear extractor vent placed under

the rear spoiler provides efficient hot air removal for additional comfort in extreme conditions.

**PUSH-BUTTON CHIN VENT** ensures that fresh air is channelled to the rider's face, and to the visor to help stop fogging.

**WIDE VISOR PORT** for greatly enhanced vision.

**HIGH QUALITY SCRATCH RESISTANT LEXAN VISOR** for outstanding strength and safety, optical quality and longer visor life.

**NFR ANTI-FOG VISOR INSERT** provides clear vision in all conditions.

**TOOL-FREE QUICK RELEASE VISOR MECHANISM** with active multi-level opening stages.

**DUAL ACTION VISOR LOCK** to prevent it opening at high speeds, also has a secondary function to open the visor about 4mm to aid anti-fogging at low speeds.

**SPECIAL HI-BRITE GEL COATED GRAPHICS** to ensure better durability, colour holding, and longer life.

**REMOVABLE CHIN FLAP / WIND PROTECTOR** for extra comfort.

- Sizes XSM > XXL

# N-104 Flip-Up

- 100% Italian made Quality.
- Massive 5 year warranty.

**TINTED VPS (VISION PROTECTION SYSTEM) INTERNAL VISOR** – a tinted half visor system that effectively cuts down sun glare to offer the enhanced vision & protection of sunglasses or a tinted visor, with the convenience of instantly flipping up inside the helmet when not needed. The VPS is also Scratch Resistant and Anti-Fog treatment, and can be removed for servicing.

**COMPATIBLE WITH NOLAN'S INTEGRATED N-COM MULTI-MEDIA/INTERCOM SYSTEM** to allow Intercom for bike-to-bike or passengers, & connections to multi-media like phone, MP3, GPS, etc.

**EASY TO USE "FLIP-UP" JAW** with Nolan's special Smartlift jaw opening latch with a double action that is easy to use with a single hand, & provides unbeatable locking safety.

**ELLIPTICAL PIVOTS ON JAW OPENING** so when the jaw is opened, that it stays low for better aerodynamics while riding.

**MULTI-DENSITY EPS STYRENE LINER** to provide the best shock absorption & safety levels, & maintain the best helmet size & weight.

## REMOVABLE / WASHABLE CLIMA COMFORT LINER

uses high tech materials for high breathability & comfort. It is also treated with a special anti-bacterial treatment for a longer lasting fit and feel.

**AIR BOOSTER** chin and top vent system provides optimal air intake to feed internal channels which spread the cool air through the helmet, & dual rear extractor vents provide efficient hot air removal.

**ULTRAWIDE VISOR PORT** for greatly enhanced vision – both laterally and vertically.

**HIGH QUALITY SCRATCH RESISTANT LEXAN VISOR** for outstanding strength, optical quality and longer life.

**NFR ANTI-FOG VISOR INSERT** provides clear vision in all conditions.

## Trilogy

Multi-Use

- 100% Italian made Quality.
- Massive 5 year warranty.

**THE N-43 TRILOGY** creates a new market segment for helmets by utilising a Chin-Bar that is easily removable, yet VERY strong. This gives the helmet the strength and protection of a Full-Face helmet, but can be removed within seconds to provide the freedom & versatility of an open faced helmet. This allows it to be used in ALL conditions, and for all types of riding from scooter, to sports touring and adventure.

**TINTED VPS (VISION PROTECTION SYSTEM) INTERNAL VISOR** – a tinted half visor system that effectively cuts down sun glare to offer the enhanced vision & protection of sunglasses or a tinted visor, with the convenience of instantly flipping up inside the helmet when not needed. The VPS is also Scratch Resistant and Anti-Fog treated, and can be easily removed for servicing.

**COMPATIBLE WITH NOLAN'S INTEGRATED N-COM MULTI-MEDIA/INTERCOM SYSTEM** to allow Intercom for bike-to-bike or passengers, & connections to multi-media like phone, MP3, GPS, etc.

**MULTI-DENSITY EPS STYRENE LINER** to provide the best shock absorption & safety levels, & maintain the best helmet size & weight.

**THE N-43 TRILOGY** is also supplied with a small optional peak so the helmet can be re-configured to suit the rider's needs.

**REMOVABLE / WASHABLE CLIMA COMFORT LINER** uses high tech materials for high breathability & comfort. It is also treated with a special anti-bacterial treatment for a longer lasting fit and feel.

**ADVANCED TOP VENT SYSTEM** provides optimal air intake to feed internal channels which spread the cool air through the helmet, & dual rear extractor vents provide efficient hot air removal.

**ULTRA WIDE VISOR PORT FOR GREATLY ENHANCED VISION** – both laterally and vertically.

**HIGH QUALITY SCRATCH RESISTANT LEXAN VISOR** for outstanding strength, optical quality and longer life.

**OPTIONAL NFR ANTI-FOG VISOR INSERT** is available as an accessory to provide clear vision in all conditions.

**TOOL-FREE QUICK RELEASE VISOR MECHANISM** with active multi-level opening stages.

Here are some of the features and functions that Nolan's N-Com Systems:

**BLUETOOTH**  
Bike-to-bike  
(up to 4 bikes)

**INTERCOM**  
Bluetooth or cable

**PHONE CONNECTION**  
Bluetooth or cable

**MP3 CONNECTION**  
Bluetooth or cable

**GPS**  
Bluetooth or cable

**BLUETOOTH CONFERENCE**  
GPS + rider + pillion

**BLUETOOTH CONFERENCE**  
Phone + rider + pillion

**PC CONNECTION**  
for configuration

**FM RADIO**

**CABLE CONNECTION**  
Pillion or multi-media

\*Available functions depend on model of helmet, and which N-Com components are used.

For more information on configurations, please visit [www.n-com.it](http://www.n-com.it)

## n-com NOLAN COMMUNICATION SYSTEM

**Stay connected, or lose yourself... With N-Com, the option is yours.**

To further enhance your riding experience while using Nolan helmets, Nolan created the N-Com system. N-Com was the worlds first FULLY INTEGRATED communication / multi-media system for motorcycle helmets. Both the speaker / microphone kits and control panels fit perfectly into pre-made recesses built into selected Nolan helmets – so there are NO items stuck to the outside of helmets, and NO speakers uncomfortably jammed behind helmet liners where they shouldn't be.

N-Com systems are designed in several sections, so the system can be 'tuned' to suit each rider's needs.

Starting with a 'Basic Kit' (microphone & speakers), the rider can connect to phone or multi-media by **cable**.

The rider can then add either an Intercom kit to connect to a pillion by **cable**, or add a **Bluetooth** kit for multiple wireless and wired connections.

This allows the user to stay connected with intercom bike-to-bike or to their passenger, or connect to many devices like phones and GPS Systems via **Bluetooth** or **cable**, or just connect to their MP3 music player and lose themselves in the ride...

Simply unbeatable fit, function and features.

## n-com MULTI

**Universal N-Com units for helmets that are not compatible with N-Com**

In order to allow ALL riders to have the chance to use the N-Com system, Nolan have introduced the N-Com MULTI, and Bluetooth MULTI series with UNIVERSAL FITMENT.

All Nolan helmets are designed for use with N-Com MULTI, but the system is designed for UNIVERSAL fitment, and it will also easily fit most other brands of helmets.

## n-com

## Basic Kit 2 MCS

**Specifically designed for use with in-built audio systems on Honda Goldwing and Harley Davidson motorcycles.**

The Basic Kit 2 MCS provides the comfort and function of having an N-Com unit that is properly integrated into your helmet, and it will connect directly to the motorcycle communication system on Honda Goldwings, BMW K1200LT, and Harley Davidson motorcycles.

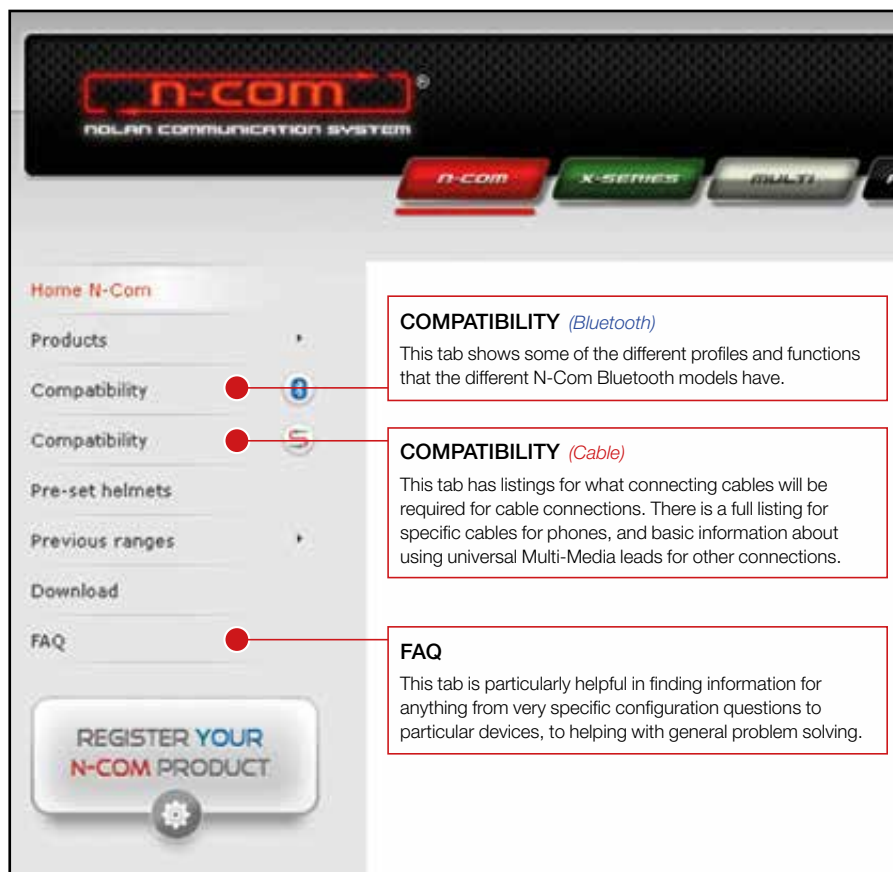

By using the connection lead provided with the kit, the MCS Kit works perfectly with the motorcycle system to provide high quality sound and intercom capabilities.

## N-Com Website Features

[www.n-com.it](http://www.n-com.it)

**COMPATIBILITY (Bluetooth)**  
This tab shows some of the different profiles and functions that the different N-Com Bluetooth models have.

**COMPATIBILITY (Cable)**  
This tab has listings for what connecting cables will be required for cable connections. There is a full listing for specific cables for phones, and basic information about using universal Multi-Media leads for other connections.

**FAQ**  
This tab is particularly helpful in finding information for anything from very specific configuration questions to particular devices, to helping with general problem solving.

## Cables & accessories

### In-Bike Charger

The N-Com In-Bike Charger has a set of leads that can be permanently connected to the motorcycle with a 'cigarette lighter' style connection to plug into for use. This means the 'cigarette' adaptor can be used for other items too – further adding to its convenience.

### Specific Phone Cables

N-Com has a very comprehensive selection of specific phone cables available to suit most popular phones.

### Multi-Media Cables

N-Com has universal Multi-Media Cables with a 3.5mm connector that suits most forms of music players and other devices with an audio output jack.

For more information on configurations, please visit [www.n-com.it](http://www.n-com.it)

*Fog City*

**HYPER SHIELD CLEAR**, Anti- Fog Visor Insert provides unprecedented technology in visual clarity. Constructed of an optical grade, 20-mil polycarbonate lens that is imbued with a patented anti-fog coating.

This high quality anti-fog technology is what has made Fog City the world leader in anti-fog visor inserts.

Able to absorb over 98% of harmful UV rays, the HYPER SHIELD CLEAR Anti-Fog Visor Insert is simple to install and provides amazing performance instantly converting your clear shield into the highest performing Anti-Fog, UV blocking visor available today.

HYPER SHIELD CLEAR is optimally configured for all weather, all season riding comfort and performance.

Compatible with PIN and NON-PIN based visors.

**HYPER OPTIK UNI** Light Reactive, Anti-Fog, UV blocking Vision.

A unique light reactive anti-fog visor insert, HYPER OPTIKS combines the advantages of the world renowned Fog City anti-fog inserts with the newest photochromatic technology.

Built with a 20 mil, optical grade polycarbonate lens, HYPER OPTIKS changes color from a light mint green to a cobalt blue in less than 4 seconds under bright light!

This photochromatic effect, married to Fog City anti-fog technology, results in the best optical vision under virtually any condition.

Incorporating molecular-based anti-fog technology, the anti-misting properties of the HYPER OPTIKS insert will never wear out or saturate like chemical coatings, sprays and lesser quality

# Continental

GET THE GRIP

# Continental

GET THE GRIP

 deutsche technik  
seit 1871

Continental was founded in 1871, and have been producing motorcycle tyres since 1907. Along with their premium Motorcycle, Car, Truck, and Bicycle tyres, Continental also design and manufacture a massive range of products like complete braking systems, ABS systems, instrumentation and electronic automotive aides, and supply premium performance tyres for many prestigious companies like Porsche, Bimota, and BMW (with both BMW cars and Motorcycles supplied with Continental as OEM fitment). Continental have also expanded their OEM Motorcycle fitment to include Honda, KTM and Derbi models.

As a Motorcycle tyre manufacturer, Continental are 8 time world championship winners. They have recently made a massive push to move back to the top of the motorcycle market, and have invested over 50 million dollars in advanced production lines. They have had good success in Europe, and with the quality of products that they are producing, success in the rest of the world is sure to follow.

Continental have a massive R&D department with some of the best technicians and chemists in the world, and have a dedicated testing track (shown below). Their push for excellence has produced some of the best tyres on the market, and created many technical advances like Black Chilli, Continuous Compound, and Traction Skin technology.

**The 'ContiDrom' testing facility** covers 160 hectares and incorporates a 2.8km banked oval, 3.8km dry circuit, 1.9km wet circuit, 1.5km wet braking section with tarmac, concrete and cobblestones, an aquaplaning pool, small circle tracks, acoustic tracks for noise testing, an offroad course, and technical training rooms.

## Conti Advanced Technical Features

**Here are just a few of the advanced features that are incorporated into the Continental range.**

**\*CONTINUOUS COMPOUND** is created by using extremely advanced temperature controlled curing processes. This provides a *seamless transition* between the *optimum soft grip compound on the sides of the tyres* where you need it, to the *optimum firmer wear compound in the centre of the tyre* for better mileage. This not only provides the *best grip/wear ratio*, but because this is done in one continuous layer on the tyre, it provides the *best feel, feedback and most predictable handling* as well.

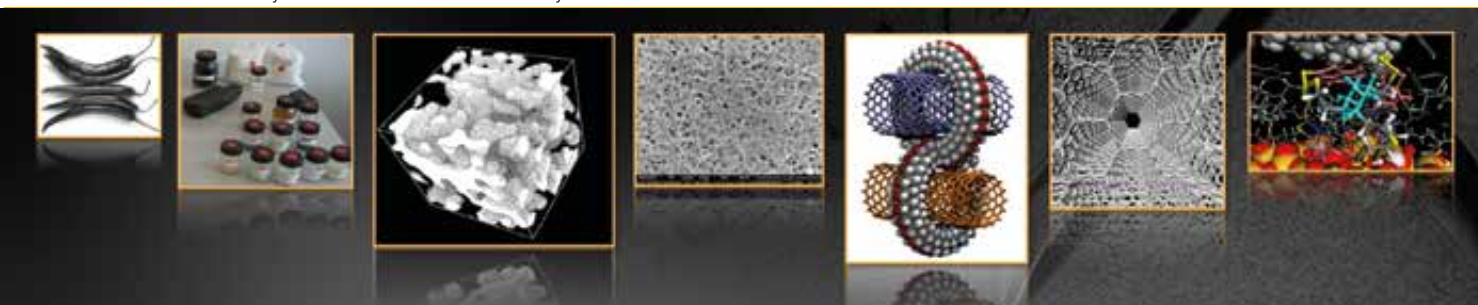

**\*TRACTION SKIN** is a *revolutionary tactile tread surface* that is impregnated into the tyres surface during manufacture. The micro-roughness of the tread *optimizes the mechanical adhesion to the road*, and produces the *safest and fastest tyre break-in available*. **READY 2 RIDE!**

**\*BLACK CHILLI COMPOUND** is a superior compound structure with *High Structured Racing Carbon Black*, 'ASC' *Active Silica Compound Technology* and 'TRIC' *resin*. This advanced technology creates a *very dense molecule structure* with no loose molecule ends, which provides a *softer rubber compound* to give *outstanding grip and fast warmup*, but the density of its structure also makes it *more resistant to wear*. The best of both worlds.

\*These features are only available on selected Continental tyres.

## RACE ATTACK SLICK RACE – TRACK (Track use only)

- Revolutionary front tyre carcass technology, for transparent feedback during braking for corners.
- The use of Conti's special Black Chili Compound provides massive amounts of grip to allow large g-forces at maximum lean angles, and also gives fast warm-up times and great wear characteristics.
- Unique tyre profile technology gives the best combination of fast handling & large contact patch at high lean angles, & maximum contact patch on the rear tyre for better traction under hard acceleration.
- Continuous Compound Technology provides a SEAMLESS transition between the optimum grip compound on the side of the tyre, to the optimum wear compound.

## RACE ATTACK RAIN RACE – TRACK (Track use only)

- Revolutionary front tyre carcass technology, for transparent feedback during braking for corners.
- Unique tyre profile technology designed to give the optimum contact patch for wet riding conditions.
- State-of-the-art wet track rubber compound provides a controllable ride with high feedback characteristics, providing excellent traction even under hard riding conditions.
- Innovative tread pattern design to ensure optimal water clearance and high grip in extreme wet track conditions.

## RACE ATTACK COMP. RACE – TRACK (Track use only)

- Continuous Compound Technology provides a SEAMLESS transition between the optimum grip compound on the side of the tyre, to the optimum wear compound in the centre of the tyre. This provides the best grip / wear ratio, & also provides better feel and feedback to the rider.
- Continental's "Black Chili" Compound provides amazing levels of grip, very fast warm-up times, and comparatively low wear rates.
- An enhanced front tyre profile provides increased footprint at extreme lean angles to give precise handling and outstanding grip. It also aids tip-in feel, and provides a stable feel when at high lean angles.
- Zero degree belt construction on front and rear tyres to provide high stability and amazing levels of feedback when pushing hard under braking or acceleration.
- Innovative tread pattern from the Continental "Attack" family, with a progressive slick area on the shoulder of the tyre for more control and grip.
- Available in Soft, Medium & Endurance compounds.

## RA2 CR (Classic Race)

### CLASSIC RACING

- Continuous Compound Technology provides a SEAMLESS transition between the optimum grip compound on the side of the tyre, to the optimum wear compound in the centre of the tyre. This provides a more consistent feel, with a better transition of grip from the side to centre of the tyre, and better feedback to the rider than other brands "3 layer" constructions
- Continental's "Black Chili" Compound with High-Structured Racing Carbon Black and 'TRIC' resin provides high levels of grip in dry or wet conditions, very fast warm-up times, and comparatively low wear rates.
- Traction Skin tactile tread surface enhances the new tyres mechanical adhesion to the road, and gives it the fastest break in of any tyre. Ready 2 Ride!
- Patented Zero degree belt construction gives excellent feedback to the rider to increase riding comfort & provide big safety reserves when limits are being reached.
- Innovative Tread Groove technology and tread depth gives better wear, higher stability, shorter braking distances and more efficient acceleration.
- Dynamic Ride Technology (DRT) is a new patented steel belt construction with a unique tyre contour that has been developed to greatly improve handling and control.

The new RA2 Classic Race tyres made a spectacular debut at the famous Spa-Francorchamps race in Belgium – with riders *lapping up to 7 SECONDS FASTER* than they were with their previous tyres!!!

The RA2 Classic Race tyres filled 1st and 2nd spot on the podium – with a broken chain being the only thing that stopped a RA2 Classic Race clean sweep of the podium!

Made in Germany!

## RACE ATTACK ENDURANCE

### HYPERSPORTS – ROAD – TRACK – RACE

- Continuous Compound Technology provides a SEAMLESS transition between the optimum grip compound on the side of the tyre, to the optimum wear compound in the centre of the tyre. It not only provides the best possible Grip AND Wear characteristics – but also a much more consistent feel, with a better transition of grip from the side to centre of the tyre, and better feedback to the rider than other brands "3 layer" constructions.
- Continental's "Black Chili" Compound provides amazing levels of grip, very fast warm-up times, and comparatively low wear rates.
- An enhanced front tyre profile provides an increased footprint at extreme lean angles to give precise handling and outstanding grip. It also aids tip-in feel, and provides a stable feel when at high lean angles.
- Zero degree belt construction on front and rear tyres to provide high stability and amazing levels of feedback when pushing hard under braking or acceleration.
- Innovative tread pattern from the Continental "Attack" family, with a progressive slick area on the shoulder of the tyre for more control and grip.

## SPORT ATTACK 2

### HYPERSPORTS – SPORTS – SPORTS TOUR

- Continuous Compound Technology provides a SEAMLESS transition between the optimum grip compound on the side of the tyre, to the optimum wear compound in the centre of the tyre. It not only provides the best possible Grip & Wear characteristics – but also a much more consistent feel, with a better transition of grip from the side to centre of the tyre, and better feedback to the rider than other brands “multi layer” constructions .
- Continental's “Black Chilli” Compound with High-Structured Racing Carbon Black and ‘TRIC’ resin provides high levels of grip in dry or wet conditions, very fast warm-up times, and comparatively low wear rates.
- Traction Skin tactile tread surface enhances the new tyres mechanical adhesion to the road, and gives it the fastest break in of any tyre. Ready 2 Ride!
- Patented Zero degree belt construction gives a very high degree of feedback to the rider to increase riding comfort and provide big safety reserves when limits are being reached.
- Aggressive tread pattern design evolved from the Attack family has been engineered to provide progressively more slick area towards the side of the tyre.
- Innovative Tread Groove technology and tread depth gives better wear, higher stability, shorter braking distances and more efficient acceleration.
- Dynamic Ride Technology (DRT) is a new patented steel belt construction with a unique tyre contour that has been developed to provide an increased footprint when at high lean angles, to greatly improve grip, handling and control.

Made in Germany!

Continental

### Comments from moto-journalists after the Australian RoadAttack 2 launch/test:

*"No matter what level of riding you are doing, you want a tyre that is progressive in its feel... From slow laps in the beginning to faster laps with more extreme lean angle... the RoadAttack 2 gave the bike a nice controlled feel with no indication of letting go or compromising safety... compared to the other brands of tyres that I have ridden on, these are impressive... Continental have to be taken seriously with the RA2."*

**Cam Donald** – Isle Of Man Winner. Two Wheels.

*"The RoadAttack 2's were superb... that magnetic feel you get that brings confidence like nothing else... the bike felt much lighter in corners... I'd rate them 10/10 on the road... Fantastically quick turn in... good feel & feedback... what really surprised me was the grip level available. Overall, as a sports/touring, hyper endurance or hypersport tyre, the Continental RoadAttack 2 exceeds its intended design & should be a fantastic tyre for the Aussie market."*

**Jeff Ware**. Rapid Bikes.

*"Cold grip is essential for road riders... which is where Conti's Black Chilli compound comes in... The tyres are more than up to the job, with solid stability during sweeping corners & sharp braking. The Attack 2 provides clear communication from the front end, while maintaining stability at the rear under hard acceleration."*

**Renny Skaysbrook**. AMCN.

*"Traction and handling were sure and confidence inspiring... both bikes handled beautifully, and front or rear traction was never in question... Again tyres stood up beautifully to much greater demands than would be asked for in road usage. So full marks to the tyres on each of the bikes I rode."*

**Gordon Barrett**. Riding On.

*"The first & most apparent difference... is the matt surface finish called Traction Skin. Leaving the workshop... the level of grip was so much better than any other tyre, it's almost beyond comparison."*

**Alec Simpson**. Two Wheels.

*"...A Hayabusa with around 210 ponies at the rear wheel... with a brand spankers set of RA2 fitted on a wet & miserable morning... a chance to try Conti's Traction Skin... it gets my thumbs up! The RA2s impressed with their grip & responsiveness on a bike known for its ability to torture rubber."*

**Ken Wooton**. Motorcycle Trader.

*"On the road the tyres performed faultlessly, notably offering impressive stability on the straights & feel in the corners. A look at Conti's tyre chart indicates that the RA2 is capable of cutting the mustard from touring/commuting right through to hypersports. From the testing that we did, it's hard to argue with Conti's claims..."*

**Chris Pickett**. Cycle Torque.

## Conti MOTION RADIALS

### SPORTS / TOURING – TOURING – COMMUTING

- Entry level Sports / Touring tyre
- New Formulated polymer Compound provides good grip and excellent mileage.
- Zero degree belt construction on the rear tyre gives excellent stability and feedback under acceleration.
- Safe and reliable feedback and grip on both dry and wet roads.
- Excellent price / performance ratio.

## Attack SM

### SUPER MOTO – ROAD – TRACK – RACE

- Designed specifically for SuperMoto riding and racing, the AttackSM provides the perfect level of fast handling, grip, and feedback to provide confidence when pushing the limits and sliding.
- Continuous Compound Technology provides a SEAMLESS transition between the optimum grip compound on the side of the tyre, to the optimum wear compound in the centre of the tyre. It not only provides the best possible Grip & Wear characteristics – but also a much more consistent feel, with a better transition of grip from the side to centre of the tyre, and better feedback to the rider than other brands “3 layer” constructions .
- Continental's “Black Chili” Compound with High-Structured Racing Carbon Black and ‘TRIC’ resin provides high levels of grip in dry or wet conditions, very fast warm-up times, and comparatively low wear rates.
- Traction Skin tactile tread surface enhances the new tyres mechanical adhesion to the road, and gives it the fastest break in of any tyre. Ready 2 Ride!
- Patented Zero degree belt construction gives a very high degree of feedback to the rider to increase riding comfort and provide big safety reserves when limits are being reached.
- New patented steel belt construction with a unique tyre contour that has been developed to greatly improve handling and control.

## TRAIL ATTACK 2

### ROAD TRAIL – ADVENTURE TOUR – TOURING

- Purpose built Radial Tyre for large capacity adventure touring bikes to provide the best possible combination of sporty on road grip, and excellent offroad capabilities.
- Continuous Compound Technology provides a SEAMLESS transition between the optimum grip compound on the side of the tyre, to the optimum wear compound in the centre of the tyre to provide the best possible Grip & Wear characteristics.
- Traction Skin tactile tread surface enhances the new tyres mechanical adhesion to the road, and gives it the fastest break in of any tyre. Ready 2 Ride!
- Specially formulated version of Continental's "Black Chili" Compound provides high levels of grip in dry or wet conditions, short breaking distances, very fast warm-up times, and comparatively low wear rates.
- Zero degree steel belt construction on the rear tyre delivers superior stability and comfort even at high cruising speeds and high loads.
- Reinforced front carcass ensures a highly precise feel, and optimised wear rates.
- Special tread pattern design adapted from the Attack family to provide an aggressive look and excellent performance in adventure touring applications.
- Original fitment on several BMW and KTM models!

# KINGS TIRE

Kings Tyres was established in Taiwan by Robert Hsieh & Gina Wen in 1982, when they saw the need to produce motorcycle, ATV, farm and industrial machinery tyres and tubes at the best quality / price ratio achievable. The factory started as a small operation & has grown over the years to include 4 factories in China, employing in excess of 1000 workers and producing in excess of 1,000,000 tyres and tubes annually.

Kings have partnered with Ron Angel's for the past 20 years and have been one of the leading suppliers to the Australian tyre market thanks to their outstanding reputation for producing high quality, reliable products for an affordable price.

KT9872

### KT 918 / 922

The KT-918 is a 4-ply, tube-type tyre with a standard, classic-type tread pattern that can be used as a front or rear tire on all sizes of street bikes. The perfect economical replacement tire for any standard street bike. When used as a rear tyre, the KT-918 pairs well with the KT-922 front tyre.

### KT 9872 / 9871

A tubeless rear tyre sports designed to be paired with the KT-9871 front tyre, the KT-9872 offers excellent performance at a very reasonable price. Featuring 4-ply construction, a low profile, aggressive tread pattern, and a large contact area, the KT-9872 will get the job done without draining your pocket.

KT965

## KT 965

The KT-965 Rear is a 4-ply, DOT approved rear tyre featuring race proven tread design with shoulder blocked side knobs for cornering traction. Also provides stability, impact resistance, durability and great traction, braking and stability characteristics. Available in a wide range of sizes for 50cc to 500cc motorcycles. Race tested by professional riders. Designed for use with the KT-965 Front tyre.

Kings

## Kings ATV Tyres – Agricultural

In order to provide the most comprehensive ATV tyres range on the market, we source our range from several of the world's leading manufacturers. The listings on the following pages show our range from Kings, Duro, Wanda tyres, and we also have a full range of Kenda ATV tyres in the Kenda section of the catalogue.

The tyres in this section are marked: KG = Kings, D = Duro, W = Wanda.

## High Performance MX/Enduro Tyre Application Chart

### K782 Sand Mad

- Specifically designed for deep sand and mud.
- Paddle shaped knobs create a large scoop for the ultimate traction and drive in loose / sloppy terrain.
- Kenda's new generation 'Sticky' compound provides added traction.

### K780 Southwick II

- Extra-tall knobs for deep bite in soft terrain and mud.
- Widely spaced knob pattern self cleans even at low speed.
- New tread compound offers increased wear resistance.
- New carcass improves sidewall stability at low pressures.

### K785 Millville II

- For conditions from soft loam to loose soil over a hard base.
- Reversible tread pattern can be run in either direction to better suit Soft or Intermediate terrain.
- Reinforced knob base to provide optimum flex, and increased durability.

### K775 Washougal

- Designed for optimum traction on Intermediate terrain, but works very well on most terrain.
- Triangular knobs reduce flex on hard based terrain.
- New carcass structure features reinforced sidewalls for optimum flex, and puncture resistance.

### K781 Triple

- Designed specifically for hard terrain, especially Supercross type applications.
- New sticky rubber compound for high traction
- Low profile sidewall for improved cornering stability and cornering traction
- Dimpled knobs for extra traction and quick warm up
- New apex casing structure with improved sidewall stiffness to reduce flex

### K772 Carlsbad / K772 Parker DT

- Specifically engineered for hard-packed 'Blue Groove' terrain.
- Reversible tread pattern can be run in either direction to better suit Hard or Intermediate terrain.

#### PARKER DT (Desert version)

- Designed to cope with the harsh conditions and high speeds of the desert.
- 6-ply rated carcass and sidewalls offer 30% more cut resistance.
- New natural rubber compound for extended tread wear and reduced knob chunking.

### Kenda STICKY Compound

Kenda's 'Sticky' rubber is a specially developed softer and slower rebounding rubber compound that provides greatly increased traction – especially in hard-packed terrain.

The special compound acts like a form of suspension – actually flexing and conforming to the terrain instead of slipping or bouncing.

\*Sticky compound is only available on selected models.

## K777F/K778 DOT and FIM Enduro

Soft > Intermediate – FIM Enduro

- DOT Approved tyres.
- Front tyre has a directional pattern to suit Intermediate to Soft terrain.
- Rear tyre has a 13mm FIM legal tread depth, and a dual rotational tread design to work in Intermediate or Soft terrain.
- Durable casing and long life tread compound.

## K776F/K779 DOT and FIM Enduro

Intermediate > Hard – FIM Enduro

- DOT and FIM Approved tyres.
- Front tyre has a unique directional pattern with dimpled knobs to suit dry, rocky and hard terrain.
- Rear tyre has a 13mm FIM legal tread depth, and is well suited to intermediate or firm/rocky terrain.
- Durable casing and long life tread compound.

## K760 Trackmaster

DOT Approved Knobby 90% Dirt / 10% Road

- Full Performance Knobby DOT APPROVED for road use.
- Strong 6ply rated carcass for puncture resistance and durability.
- Long wearing tread compound.
- Improved bead and sidewall provides positive flex for improved cornering and feel.
- Open tread pattern for maximum traction and efficient cleaning.

## K257

Trail / Agricultural Bikes

- Aggressive four / five knob tread pattern provides good traction and durability in varied terrain.
- Some sizes are DOT Approved.
- New natural rubber compound adds to traction, and also extends tyre life.
- Perfect for use on Agricultural Bikes and Trail bikes.

## K-281

Speedway

Developed by world Champions so you get the holeshot everytime, high performance and great value.

## K284 Frontmax

### Steer tyre for 2WD

- Front rib tyre designed specifically for sure-footed steering on 2WD machines
- Reinforces knobs for superior tracking and steering.
- Puncture resistant casing.

## K290 Scorpion

### Utility ATV

- Tread pattern works well in a mix of terrain types.
- Good puncture resistance.

## K292 Dune Runner

- Classic sand paddle tread design.
- Lightweight 2-ply rated casing.
- Reinforced paddle base for extra durability.

## K298 Dune Runner

### Performance Dune Steer Tyre

- Classic front sand steer design.
- Reinforced rib base for durability, positive feel and steering accuracy.
- Specifically developed for control and performance in deep sand.

## K299 Bearclaw

### Utility ATV

- Extra tough 6 Ply rated carcass to resist punctures.
- Angled knobs dig into the terrain for maximum traction in the worst conditions.
- Centre lugs provide extra traction and better control.
- Built in rim guard protects your wheel from dings and dents.
- Long lasting tread compound.

## K300 Dominator

### Sport ATV

- Excellent choice for weekend and recreational Sport ATV riders.
- Split knob design for better cornering and braking grip and feel.
- Tough, durable carcass to deal with rough and varied terrain.
- Advanced tread compound for longer life.

## K530 Pathfinder

### Utility ATV

- Tread pattern designed for easy rolling and smooth ride.
- Advanced tyre compound for longer life.
- Highly puncture resistant casing.

## K532F/K533 Klaw

### Sport ATV

- Excellent choice for Racers or weekend recreational Sport ATV riders.
- Split knob design for better cornering and braking grip and feel.
- Tough, durable carcass to deal with roughest rocks and roots.
- Advanced tread compound for longer life.

## K534 Sand Gecko

### Performance Dune Tyre

- Lightweight casing design.
- Tread designed for excellent straight line traction and predictable cornering.
- Eight paddle design.
- Unique tread compound designed for optimum performance in sand.

## K535 Knarly

### Sport ATV

- Designed for ultimate sports performance.
- Extra tough casing to resist punctures.
- Large, durable knobs to handle the toughest rocks and roots.
- Race proven in GNCC and Baha 1000 races.
- High grip / long life tread compound.

## K538 Executioner

- Designed to meet the demands of the muddiest 4x4 riding terrain.
- Reinforced knobs to reduce knob rollover at low pressure, improve ride comfort and increase tread life
- 6-ply rated with extra tough casing resists puncture

## K542F/K543

### Sport ATV

- Dedicated performance front tyre design.
- Directional knobs to provide excellent steering performance.
- Wide spaced knobs to facilitate self cleaning.

### K543

- Evenly spaced knobs for smooth ride.
- Profile design provides a large footprint area.
- Will work for many conditions.

## K546F/K547 Speed Racer

### Sport ATV – Speedway

- Excellent design for speedway racing.
- Deep grooved lugs to facilitate self cleaning and grip on dirt surfaces.

## K570

- Close tread pattern to keep noise level at a minimum.
- Flexible casing to provide a smooth ride.
- Unique tread pattern designed to perform in a wide range of conditions.

## K572 Road Go

- Designed for ATV/Utility dual purpose applications
- Siped tread pattern for improved traction on wet surfaces

**Note:** NOT LEGAL FOR ON-ROAD USE

## K573 Bear Claw EX

### Utility ATV

- New ramp-edged centre knobs to reduce rolling resistance.
- Raised ribs in open tread areas for additional casing protection.
- High sidewall casing protector to resist punctures.
- Rim bead saver.
- 6 Ply rated extra tough carcass to resist punctures.

## K576 Road

- Designed for side by side vehicles.
- Tread pattern designed for a wide range of terrain.
- Non-directional tread and a unique centre zone for tough off-road surfaces.

## K580F / K581 Kutter

- New STICKY rubber for the ultimate in traction
- New lightweight casing structure with reinforced sidewalls
- New tread profile for a larger foot print on the ground

## K585 Bounty Hunter

- Tread pattern designed for Intermediate to hard terrain
- Radial Tire designed specifically for the SIDE-BY-SIDE UTV market
- Extra tough HEAVY DUTY 8-ply rated casing resists punctures and improves ride quality and handling

## K587 Bearclaw HTR

- 8-ply rated extra tough casing.
- Radial construction for a smoother ride.
- All new tread pattern to promote self cleaning while ensuring maximum bite.

## Tubes

### Standard Motorcycle, ATV & Industrial

- Largest size range.
- Made from Butyl Rubber to minimise air loss, and increase tube life.
- Thicker and stronger than OEM Tubes.
- Competitive pricing.

### Heavy Duty "Tuff Tubes"

- Good size range to fit performance Motocross, Enduro & Mini bikes.
- 2.4mm Thick – Over 2 times thicker than OEM Tubes.
- Made from Thick Butyl Rubber to minimise air loss, and greatly increase tube life.
- Competitive pricing.

### Extra Heavy Duty "SUPER Tuff Tubes"

- Available in common 18", 19" & 21" to fit Performance Motocross and Enduro bikes.
- 3.7mm Thick!!! This provides amazing puncture resistance and tube life.
- Made from Extra Thick Butyl Rubber to minimise air loss, and greatly increase tube life.

## TYRE SHIELD

KG9805	TYRE SHIELD PINK TSP 125ML(PACK-12)
KG9810	TYRE SHIELD PINK TSP 250ML(PACK-9)
KG9815	TYRE SHIELD PINK TSP 500ML(PACK-6)
KG9825	TYRE SHIELD PINK TSP 1LITRE(PACK-4)
KG9830	TYRE SHIELD PINK TSP 20LITRE DRUM

**TYRE SHIELD** seals holes in both tube and tubeless tyres caused by puncturing objects up to 6mm in diameter which appear in the tread area of the tyre and 3mm in tube type tyres as the vehicle is being driven.

**TYRE SHIELD** prevents rust, heat build up, and seals pourous leaks and maintains tyre pressure.

**TYRE SHIELD** does not affect tyres or rims.

**TYRE SHIELD** helps to extend tyre life by the combination of maintaining correct balance and the prevention of heat build up.

**TYRE SHIELD** will not damage steel, aluminium or tyre rubber. Balances tyres in motion. Seals all pourous leaks and bead leaks.

TYRE SHIELD is a puncture preventative. It is an inert substance pumped through the valve stem of tyres, which are then rotated and consequently are sealed against pourous and rim leaks.

### POINTS TO REMEMBER

Sealing will only occur on the tread of the tyre, i.e., from shoulder to shoulder in the tread area. Sealing will not occur on tyre side wall as centrifugal force does not operate on this portion of the tyre, and there is too much flexing in the side wall.

#### Pneumatic Tyres

TYRE SHIELD is only applied into pneumatic tyres, i.e., all tyres which are inflated with air. Caution should be taken that there is no water in tyres before applying the product. Ensure that compressors contain water traps which prevent water from collecting in air lines, as all compressors generate water.

#### Under Inflation

**Problem:** Under inflated tyres can be dangerous. Under inflation is a frequent cause of tyre damage. Excessive flexing, which build up internal heat eventually weakens the side of the tyre. Under inflation will also cause rapid tread wear.

**Solution:** TYRE SHIELD seals all pourous leaks, thus maintaining correctly inflated tyre pressure in tubeless tyres.

**Problem:** Under inflation leads to poor steering response, reduces cornering ability and can cause loss of control in emergencies.

**Solution:** TYRE SHIELD seals tyres and rims of pourous leaks and will seal most punctures in the tread area of tubeless tyres caused by puncturing objects up to 6mm in diameter as the vehicle is being driven.

**Problem:** Under inflation increases rolling resistance in the tyre. This acts like a dragging brake and can significantly increase fuel consumption.

**Solution:** TYRE SHIELD seals all pourous leaks in tubeless tyres and rims, thus maintaining correctly inflated tyre pressure.

**Problem:** Under inflation can make the side walls of the tyre vulnerable to damage from kerbs, potholes and sharp objects on the road.

**Solution:** TYRE SHIELD seals all pourous leaks in tyre rims and seals punctures in the tread area of tubeless tyres caused by puncturing objects no larger than 6mm as the vehicle is being driven.

**Problem:** Under inflation is dangerous in wet weather which allows the tread grooves to close up so that water cannot

drain away. This causes aquaplaning and can result in total loss of steering control, especially during cornering or braking.

**Solution:** TYRE SHIELD seals all pourous leaks in tubeless tyre rims, thus maintaining correctly inflated tyres.

### RECOMMENDED MINIMUM AMOUNTS:

1. Push bike tyre – 60 ml per tyre
2. Ride-on mower – 60 ml per tyre
3. Motorbike – 50 ml front tyre / 100 ml back tyre
4. AG Bike – 60 ml front tyre / 100 ml back tyre
5. Standard car type – 100ml per tyre
6. A.T.V. and 4WD – 200 ml per tyre
7. Super singles, truck tyres and desert duals – 500ml per tyre
8. Truck tyres 1000 x 20 – 200ml per tyre

**Tyre Shield – Puncture Resistance**

With over 30 years of experience, GIVI are BY FAR the world market leaders in motorcycle luggage and accessories.

The quality of product and size of their range puts them miles ahead of all other brands, and they even produce much of the official branded luggage supplied directly as

## *How to easily find the right GIVI products for bikes*

**The VERY FIRST THING you should always do is look up the specific model of bike in the Givi Fitment list (included later in this catalogue), or visit [www.givi.it](http://www.givi.it) and search under the 'My Motorcycle' tab.**

Each specific bike listing will show the full range of items that are available for that model. Once you have found the appropriate mounting kit number (if available for that bike), then you can then choose which cases and other accessories will suit.

\*If the bike you are searching for does not have the appropriate product listed, you may have to use a universal item if it is viable.

## **Here is a breakdown of the Givi products that you will find over the following pages.**

### **Hard Luggage**

GIVI have a wide range of stylish cases to suit all needs – most with options like integrated stop light kits, backrests & internal soft bags. Even the cheapest models show Givi's level of quality, & offer quality, function & security that only Givi can provide.

There is a massive range of specific mounting racks, & there are also many cleverly designed universal mounting racks available.

\*Please consult the Givi fitment list for specific models available.

\*Universal mounting options are outlined over the following pages.

### **Engine / Crash Bars**

GIVI supply a large range of Engine / Crash Bars to provide protection, without compromising the look of the bike.

\*Please consult the Givi fitment list for the specific models available.

### **Cruiser Accessories**

GIVI have a range of Sissy Bars to suit Japanese Cruiser models. Most of these have a small removable pack-frame on them.

They also have a range of specific and universal windscreens for cruisers.

\*Please consult the Givi fitment list for the specific models available.

### **Windscreens**

GIVI make a wide range of specific 'spoilers', higher than OEM screens, adjustable screens, scooter, 'double bubble' sports screens & cruiser screens.

They also have a wide range of universal screens & semi-cockpits to suit a wide range of applications including naked bikes and cruisers.

\*Universal screens are in the following pages, and specific screens are in the fit list.

### **Soft Luggage**

GIVI have a large range of high quality soft luggage. Some products are also available with specific, or semi-specific fitting kits.

\*The soft luggage range is shown later in this catalogue.

\*For specific fitment listings, please consult the following pages, your Givi Catalogue or visit the [www.givi.it](http://www.givi.it) website and search under the 'My Motorcycle' tab.

## Givi Cases

**Givi cases use 3 different types of mounting plate systems. They have been designed to cope with different weight loads and applications to suit bikes and scooters.**

### MonoKEY

**Topcases & Panniers.** These are generally designed for larger bikes, & have larger volume and weight capacities.

\*To mount these cases, you must first purchase a fitting kit.

### MonoLOCK

**Topcases.** MonoLOCK cases are generally smaller/lighter cases that are designed with a budget, smaller bikes, and smaller volume and weight capacities in mind.

\*MonoLOCK cases are all supplied with a universal mounting plate and fit kit.

\*Please consult the GIVI fitment list to find the appropriate mounting racks for bikes BEFORE choosing cases.

### Colour Matched Cases

Some GIVI cases are available with painted lids or replacement lid panels.

We keep some basic colours in stock, but there are also some MODEL SPECIFIC colours listed in the GIVI fitment list, and on [www.givi.it](http://www.givi.it).

\*Some painted models and accessory part numbers below have been marked with #### where multiple colour choices are available.

Supplied with universal mounting plate.

- 34lt volume.
- Fits 1 helmet.

## KEY SETS

Lock & Key sets can be supplied in single lock replacement, or in sets to 2 or 3 so panniers and topcases can all be matched and opened with a single key.

### Lock parts suit ALL Givi cases, except V47 and TRK52.

Z135	Blank key for Givi cases
Z140R	1 Key and Lock bush set for Givi cases
Z227	2 Matched Key and Lock bush set for Givi cases
Z228	3 Matched Key and Lock bush set for Givi cases

### “SECURITY LOCK” SETS

Thanks to their advanced lock BARREL & key design, Givi's Security Locks offer an added level of security.

#### SECURITY LOCKS ARE COMPATABLE WITH:

TRK52N – V47 – E470 – V46 – TRK46N – E370  
E340 – TRK33N – E340 – B33NMK – E300N2

#### \*SECURITY LOCKS ARE NOT COMPATIBLE WITH:

E55 – E45 – E41 – E360 – E36 – E21

SL101	1 Security Lock Set
-------	---------------------

SL102	2 Matched Security Lock Sets
-------	------------------------------

SL103	3 Matched Security Lock Sets
-------	------------------------------

\*For more spare part listings, please consult the following pages.

## Mounting Frames

GIVI utilises cleverly designed mounting racks to provide the strength and reliability required to carry appropriate volumes of luggage, while maintaining the style & look of the motorcycle. Most GIVI racks can be used in conjunction with each other to maximise luggage capacity.

Below, you will find an outline of the different types of racks that are used across the range.

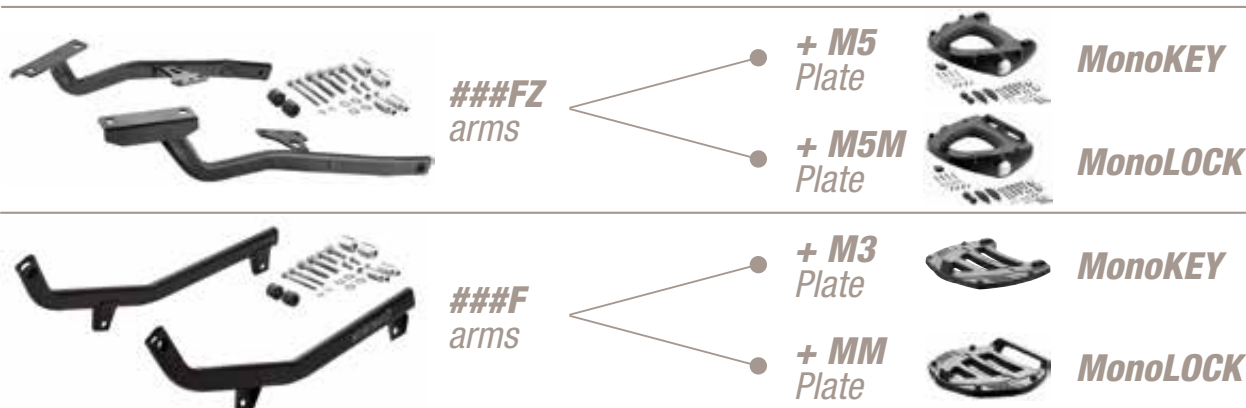

\*THE MOUNTING SYSTEM REQUIRED WILL COMPLETELY DEPEND ON THE MODEL OF BIKE. Please refer to the GIVI Fitment list, or the 'My Motorcycle' section on [www.givi.it](http://www.givi.it) for specific part numbers to suit each bike.

## Mounts for Topcases

### Monorack

MONORACKS are set of side arms and brackets that use different top plates to enable the use of both MonoLOCK and MonoKEY cases.

\*There is also a universal version available (Part #1000F) for use on bikes that Givi do NOT make a specific rack for.

\*All GIVI Monoracks are automatically supplied with a MonoKEY plate unless a MonoLOCK case is ordered with the rack or it is specifically requested.

### Special Racks

SPECIAL RACKS are small specific mounting frames with top plates. Depending on the model of bike, some racks are available with a MonoKEY OR a MonoLOCK plate.

**SR### rack = MonoKEY** | **SR###M rack = MonoLOCK**

### Specific Plate

SPECIFIC PLATES are top plates with very simple / small mounting brackets. Depending on the model of bike, some racks are available with a MonoKEY OR a MonoLOCK plate.

**E### plate = MonoKEY** | **E###M plate = MonoLOCK**

### Universal Plates

GIVI supply Universal top plates for applications where there is an adequate mounting area on the bike for the plate to mount to.

**E250 = MonoKEY**  
**###FL arms = MonoKEY**

**\*Z113C = MonoLOCK**  
**###FL arms = MonoKEY**

\*Z113C is supplied with every MonoLOCK case.

\*For specific fitment listings, please consult the following pages, your Givi Catalogue or visit the [www.givi.it](http://www.givi.it) website and search under the 'My Motorcycle' tab.

# Mounts for Panniers

## Pannier Frames

PANNIER FRAMES are a set of specific tubular frames made with simplicity and strength in mind. They can be used in conjunction with GIVI topcase mounts to provide maximum luggage capacity.

**PL###**  
Pannier frames

**PLR###**  
Quick Release Pannier frames

**PLX###**  
Pannier frames ONLY FOR V35 cases.

**PLXR###**  
Quick Release Pannier frames

\*Only V35 Cases can be used on PLX and PLXR series frames.

## Quick Release Pannier Frames

**PLR### & PLXR###**

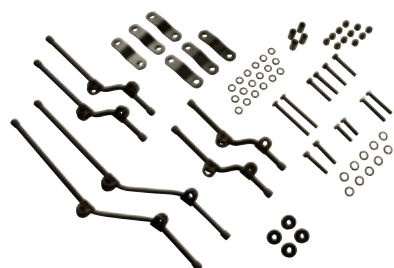

Quick Release Pannier frames are available for selected model bikes. They are designed so the main part of the frame can be quickly removed by a special key when they are not in use. This only leaves some small mounting lugs on the bike.

## Wingrack Frames

WINGRACK FRAMES are a generic frame that can be purchased for panniers & topcase combined, OR panniers only.

\*These frames must use a fit kit to mount to the bike.

**Y###**  
Specific  
Fit Kit

\*For specific fitment listings, please consult the following pages, your Givi Catalogue or visit the [www.givi.it](http://www.givi.it) website and search under the 'My Motorcycle' tab.

## GIVI Sissy Bars / Backrests

GIVI's range of Sissy Bar / Backrests for Japanese cruisers have a classic design with a chromed finish to match and complete the look of the bike. Most are supplied with a small removable luggage carrier.

**Sissy Bar part numbers are designated with TS ###**

\*THE AVAILABILITY WILL COMPLETELY DEPEND ON THE MODEL OF BIKE.  
Please refer to the GIVI Fitment list, or the 'My Motorcycle' section on [www.givi.it](http://www.givi.it) for specific part numbers to suit each bike.

## GIVI Engine / Crash Bars

GIVI makes Engine / Crash Bars to suit a very wide range of road/trail, semi-faired bikes, naked bikes and cruisers. They are cleverly designed to provide strength & crash protection, while maintaining the look of the bike.

**Crash Bar part numbers are designated with TN ###**

\*THE AVAILABILITY WILL COMPLETELY DEPEND ON THE MODEL OF BIKE.  
Please refer to the GIVI Fitment list, or the 'My Motorcycle' section on [www.givi.it](http://www.givi.it) for specific part numbers to suit each bike.

## GIVI Windscreens

GIVI supply a wide range of specific windscreens and universal windscreens for almost all applications.

\*THE AVAILABILITY WILL COMPLETELY DEPEND ON THE MODEL OF BIKE.  
Please refer to the GIVI Fitment list, or the 'My Motorcycle' section on [www.givi.it](http://www.givi.it) for specific part numbers to suit each bike.

**DH###  
Screens**

**D###DB  
Screens**

**D###S  
Screens**

**Cruiser  
Screens**

## Specific Screens

GIVI have designed replacement screens to match with riders usage of bikes. On touring models, rider's needs are met by using taller screens, aerodynamic 'lips', or even adjustable screens. Specific fitting kits are supplied where required.

### AF### Airflow Adjustable Screens

GIVI has a range of adjustable 'AIRFLOW' screens to suit selected touring & scooter models. The height is easily adjusted by 12cm to suit riders preference by releasing two quick release toggles.

### Specific Naked Bike Screens

GIVI has a wide range of screens specifically designed to suit modern naked bikes. They use simple fitting kits, and complete the aggressive styling of today's naked bike designs.

## Universal Screens

GIVI have a large range of Universal Screens and universal 'semi-cockpit' screens to suit most models of bikes and cruisers. They are supplied with cleverly designed strong and reliable universal fitting kits that can be adapted to suit most bikes.

Luggage, Windscreens, Bike Accessories & Security

## GIVI Skid Plates

GIVI have a range of Skid Plates for selected adventure bikes. They have been specifically designed to achieve the best balance between protection, light weight, and looks.

RP5103	GIVI SKID PLATE ALLOY BMW F650/700/800 GS '08>
RP3101	GIVI SKID PLATE ALLOY SUZUKI DL650 L2 '11>
RP6403	GIVI SKID PLATE ALLOY TRIMPH TIGER 1200 '12>
RP2105	GIVI SKID PLATE ALLOY YAMAHA XT660Z '08>
RP2101	GIVI SKID PLATE ALLOY YAMAHA XT1200Z '10>

\*New models are getting made all the time.

Please consult the Givi fitment list, or check the 'My Motorcycle' section on [www.givi.it](http://www.givi.it) and search by bike model for the most up-to-date listings.

## GIVI Trekker Lights

GIVI's S310 Trekker Lights are a great addition to any adventure touring bike. They have high output halogen globes, and are designed to mount on any bar from 21>26mm in diameter – ideally mounted on to Givi Crash Bars. They are easily connected directly to the motorcycle's battery without any additional modifications to the bike's wiring, and are supplied with an on/off switch that can be mounted on the handlebars.

## GIVI S220 Cable Padlock

GIVI's S220 Cable Padlock is the perfect little cable unit for quickly locking items to your motorcycle. It has a 100cm long high tensile cable, a 4 digit combination lock, and push-button spring loaded cable retraction.

8.5cm long X 5.5cm wide

## GIVI Quick Release Phone / GPS

**GIVI's new QUICK RELEASE GPS Mounting System is the only way to carry your phone or GPS!**

- GPS section releases instantly with the push of a button so you can safely take your GPS / Phone with you.
- Swivel mounted for easy angle adjustment.
- Various sizes.
- Supplied with a rain cover

The clever universal bar mount is easy to fit, and the GPS / Phone holder releases at the push of a button.

\*Adaptor kit available for bikes without conventional handlebars (S951KIT2)

### S951

**All models supplied with a rain cover and a safety strap.**

Luggage, Windscreens, Bike Accessories & Security

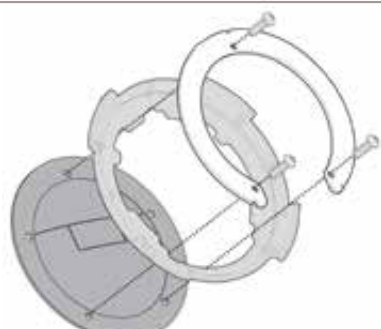

## GIVI Soft Luggage

With the highest levels of quality and function in mind, **GIVI** has a wide range of 'Soft Luggage' for almost all applications. Some have ingeniously designed specific fitting fits (like the amazing Tanklock system), while others use magnets and highly adjustable straps to allow them to fit almost any bike on the market.

## Mounts for Topcases

GIVI's TANKLOCK Mounting System is the biggest innovation in 'soft' luggage for many years.

- Eliminates the need for strap systems or magnets.
- The quickest, safest and most convenient tank bag mounting systems ever!
- No part of the bag touches your tank!!!

\*Givi Tanklock bags and BF## Flanges are sold separately.

**The simple mounting flange system quickly & easily bolts to your tank filler.**

The flange is barely noticeable on the bike!

Snap the bag in place!

Releases in one second!!!

	ZT430C ▲	Belts for rucksack with clips	€	2,93
	ZT434FV	Bag base preset for suction cups for T434S	€	8,16
	Z1244	Bag base preset for suction cups, 2 pcs	€	4,71
T432	ZT432A	Rain cover for T432	€	3,52
	ZT432B	Safety belt for T432	€	9,92
T435	ZT435A	Rain cover, 1 pcs	€	3,36
	ZT435B	Adhesive velcro (rough side), 2 pcs	€	4,32
	Z1245	Clips small	€	0,23
	Z1246	Clips medium	€	0,44
	Z1247	Clips big	€	1,02
T460B	ZT460B	Kit of two belts with male clips	€	0,90
T480	ZT480F	Nylon flange for fixing the bags T480/T489/3D600	€	1,51

## SPARE PARTS - AIRFLOW

1	Z1997R	Replacement sliding screen for Airflow	€	12,40
---	--------	----------------------------------------	---	-------

2	Z1963R	Airflow guide latch spare parts	€	5,17
---	--------	---------------------------------	---	------

**NEW!**

## CABLE SECURITY SYSTEM

### TOYLOK SECURES IN SECONDS.

Leave your dirtbike, tools or equipment securely attached to your vehicle with Toylok. Eliminate the hassle of locking up heavy bulky chains so you can hit the road sooner. Thanks to the advanced security of ToyLok you can secure your goods in seconds.

#### TIGHT SECURITY

Loop the security cable through your toys, slide the stainless steel cable end into the locking bracket and secure it with a pad lock.

#### 5 1/2 METRES OF SECURITY

ToyLok's ingenious construction also allows you to utilise all 5 1/2 metres of cable.

#### PACK IT UP

Simply remove the padlock and give the cable a tug, and the cable safely retracts into the ToyLok unit.

#### STRENGTH OF STEEL

ToyLok's cut resistant galvanised steel cable is both flexible and durable, with a tough PVC coating to prevent damage to your toys.

#### MULTIPLE MOUNTS

ToyLok has the solution for nearly any situation, whether mounting it to your ute, 4WD, caravan, trailer, garage or house.

**PRODUCT CODE: TL1**

Actual size:  
38cm x 24cm x 8cm

#### MOUNTING BRACKET

Attach ToyLok as a permanent mount.

#### STEEL CABLE END

The stainless steel end withstands the toughest abuse and is designed to fit almost any padlock.

#### LOCKING BRACKET

Fasten the cable end and lock directly to ToyLok.

#### FOR ATTACHING OPTIONAL MOUNTS

Effortlessly attach your optional mount onto the ToyLok housing unit.

**CAUTION** Toylok is a security device only, it must not be used as a tie down or for cargo securing.

#### TL2 BABY TOYLOK

Makes light work of securing all sorts of item, with a 4.6 metre cable and nylon casing. Supplied with padlock.

**ADVANCED SECURITY**

## VBO

### BLOCK ONE

- Chromed Disc Lock
- 10mm Locking Pin
- Automatic Locking System
- Supplied with Nylon Pouch
- Weather Protected Lock Mechanism

## VMD

### MINI DISC LOCK

- Compact Disc Lock
- 6mm Pin Size/42mm Pitch
- For all Bikes with Hole Rotors
- Supplied with Nylon Pouch
- Weather Protected Lock Mechanism

## VML

### MAX-LOCK CABLE LOCK

- Steel Braided Cable
- Automatic Closure
- PVC Coated for Weather Protection
- 1.5m

## VC2

### MAX CABLE 2m

- Diameter: 14mm x 2m
- Supplied without lock
- PVC Coated for Weather Protection

## VC9

### MAX CABLE PRO 9m

- Diameter: 16mm x 9m
- Supplied without Lock
- PVC Coated for Weather Protection

## VPC

### PRO CHAIN

- Security Chain with Lock
- Hardened 9.5mm thick Hexagonal chain links
- Chain covered by nylon sleeve to protect from shock
- 1m length

Vector & Toylok – Security Products

## ABOUT EK CHAINS

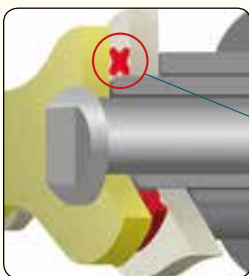

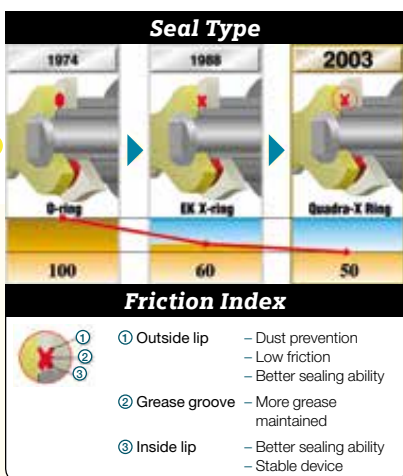

EK Chains was founded in Japan in 1941. They are a large manufacturer of all kinds of roller chain, and use their massive wealth of experience to stay at the forefront of chain technology and quality. EK Chains introduced the worlds first O-Ring chains in 1974, and everyone has been copying EK ever since.

Chains play an absolutely massive part in how much power gets through from your motor to the rear wheel. In order for a chain to transfer the most possible power, it must be made to extremely strict tolerances, and resist wear for as long as possible in order to minimise friction. Quality is an obsession at EK Chains. Every part of their Japanese factories and testing/research facilities is dedicated to creating the highest level of quality and performance from every EK chain that is made, and they have a quality/performance/price ratio that is second to none.

There is a large misconception about how much power 'sealed' chains drag from the bike. The fact is that a partially worn out 'non-sealed' chain will create more drag than a good 'sealed' chain. With EK's Quadra X-Ring seals, the difference is barely measurable on a dyno, and when you consider the gains in chain life, EK's Quadra X-Ring chain is almost always the best option for ANY application.

## EK SEAL TECHNOLOGY PROGRESSION

Since EK invented the O-Ring chain in 1974, they have been constantly improving on their design. This pursuit has resulted in EK's Quadra X-Ring Seals which provide 50% less friction than an O-Ring chain and lasts approximately 10 times longer than a standard chain.

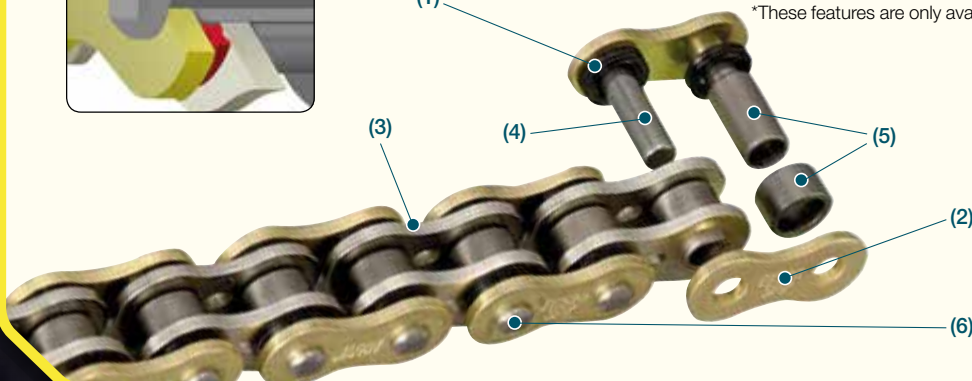

## The anatomy of an EK Chain

Premium Japanese Made Quality.

- \*Quadra X-Ring Seals** with High Quality Grease provide the optimum combination of minimum friction & maximum sealing to greatly prolong chain life.
- High Strength, Heat-treated Alloy Steel side plates** to resist stretch.
- \*Side plate holes** to reduce weight, lower friction, displace heat, and facilitate self cleaning.
- \*Chromium Carbide treated pins** for supreme impact strength, unparalleled shock absorption, and reduced oxidation.
- \*Solid Bushings & Rollers** are precision centerless ground and shot peened, to minimise friction & maximise strength.
- Quad Staked pins** for tightest tolerances and ultimate reliability.

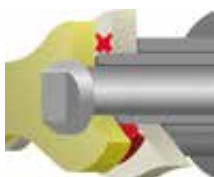

\*These features are only available on selected chains.

## THERE ARE THREE MAIN KINDS OF EK CHAINS:

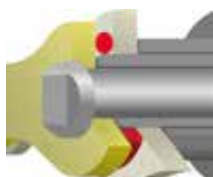

### Quadra X-RING:

EK's Quadra X-ring chains offer the best combination of maximum sealing for a longer life, and minimum friction for maximum performance.

EK's Quadra X-Ring seals have about 50% less friction than conventional O-Ring seals, & since they have more sealing points between the ring and the side plates, it seals better, and lasts about 50% longer than O-Ring chains!

With long life, low drag & high performance, EK's Quadra X-Ring chains are usually the best option for almost ALL applications - whether high performance or longer life are the main focus.

### O-Ring:

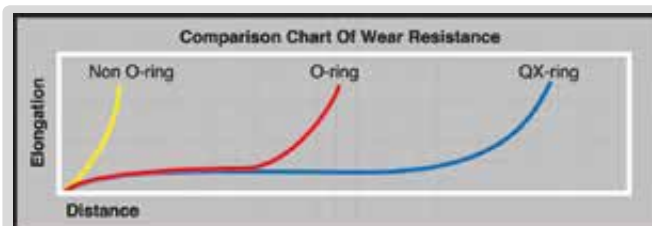

EK invented the O-Ring chain for motorcycles in 1974! The basic O-Ring seal adds a small amount of weight and friction to the chain, but it will last about 10 times longer than a non-sealed chain.

EK's O-Ring chains are perfect for applications where a balance between a longer lasting chain & an economical price is needed.

### Non-Sealed:

These are chains with no seals on them to help hold in grease, so they don't last as long as sealed chains.

EK's Non-Sealed Chains range in quality and performance from the very cheapest standard chains, to drag race chains, to premium quality race chains designed for low weight & low friction.

## EK Chain Tool

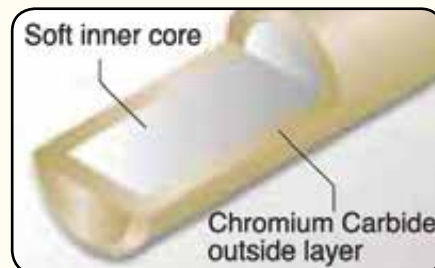

EK's chain tool is machined from solid billet hardened steel & is designed to last for a lifetime of service.

It is designed to drive out pins to break chains, and as a riveting tool for rivet links.

## Colour options

In addition to the Standard, Gold & Chrome coloured range of chains, selected EK chains are available with a specially powder coated, durable colour coating!

## CRH Pin Treatment

EK's Chromium Carbide pin treatment (CRH) creates an extremely hard outside coating & softer inside to create a pin that is extremely resistant to wear and oxidation, with superior shock absorption & impact strength.

## EK'S LIMITED WARRANTY

EK O-Ring and Quadra

X-Ring chains are warranted against defects in materials and workmanship for 24 months/ unlimited mileage for street use, or 12 months/unlimited for off-road use.

Warranty is not available in the following:

- 1- Any applications other than those recommended by EK Chain and motorcycle manual.
- 2- Use in competitive events.
- 3- Use on motorcycles that have been modified in any way.
- 4- Improper instalment.
- 5- Maintenance neglect including but not limited to improper lubrication, sprocket misalignment, and improper chain adjustment.
- 6- Normal wear.

## Lightening Holes

Lightening holes in the side plates reduce weight by 3% without compromising tensile strength.

They also prolong chain life by dissipating heat & helping reduce dirt and mud build-up.

## Zero Stretch Technology

EK Chain's Zero Stretch Technology (ZST) eliminates measurable chain stretch during the first 1000KM of use!

ZST puts an end to the hassle of constant chain adjustment after the initial break-in period when most chain stretch occurs.

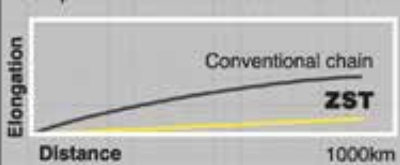

\*Only available on ZZZ and RXO chains.

### TECHNOLOGY THAT MAKES A DIFFERENCE

Nearby the French city of Lille, Afam started making sprockets in 1977. Driven by racing performance, Afam constantly improved every aspect of quality, performance & features to create better performing transmissions.

Your chain and sprockets are extremely important in transferring every possible bit of power from your motor to your rear wheel. The most precise tolerances must be adhered to if you are going to get the most from your bike, and Afam ensures that every item that leaves their factory will be the best in performance and service life.

Afam take pride in the fact that they have won more than 80 World Championships in all disciplines of road and dirt racing – from the old days of 50cc racing, right up to the modern era of MotoGP, MX1 and SBK – and transfer all of their experience into making the best products on the public market.

**AFAM** – Sprockets & Handlebars

## Sprockets

### Rear Alloy MX Sprockets

- Computer aided second generation 'snowflake' design makes Afam Sprockets one of the lightest and strongest on the market.
- CNC Machined from Hi-Grade 7075-T6 Aluminium to provide the ultimate in strength, weight and wear characteristics.
- Precision flattened to the absolute best tolerances, to minimise power loss and provide the ultimate power transfer.
- Self Cleaning Grooves on alternate teeth to provide the optimum balance of maximum tooth surface, and mud/sand removal.
- Special Hard Anodized Grey sprockets provide longer life than other Alloy sprockets.
- Several models available with a High Quality colour anodising that is bright and durable. Available in Black, Blue, Orange, Red.
- As used by many elite race teams around the world, including Yamaha's World Championship Motocross Team.

### Rear Alloy Road Race Sprockets (520 Conversion)

- Computer aided design for lightness and strength.
- CNC Machined from Hi-Grade 7075-T6 Aluminium to provide the ultimate in strength, weight and wear characteristics.
- Precision flattened to the absolute best tolerances, to minimise power loss and provide the ultimate power transfer.
- Afam's special tooth profile provides better power transfer and wear characteristics.
- Special Grey Hard Anodising gives a robust layer of extra hardness to provide outstanding durability.
- As used by many elite race teams around the world.

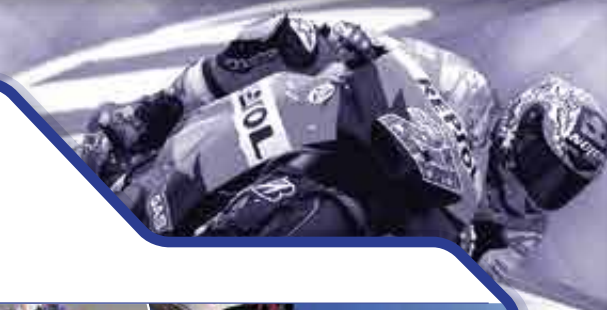

### Rear Steel Sprockets

- All Afam steel rear sprockets are manufactured in high quality C45 steel.
- Afam Steel sprockets are put through a special induction hardening process which ensures that the sprockets do not become brittle. They are then tempered to produce the optimum level of hardness to aid durability and power transfer.
- Precision flattened after hardening to meet the best possible tolerances, and provide the ultimate power transfer and sprocket life.
- Afam's special tooth profile provides better power transfer and prolongs sprocket and chain life.

\*FOR FULL FITMENT LIST AND PART NUMBERS, please consult the fitment list in the following pages

## AFAM Sprocket Kits (For road bikes only)

AFAM Sprocket Kits come with a **LIFETIME GUARANTEE** on the sprockets. *(Conditions apply)*

Once the guarantee card and the worn out sprockets are returned for inspection, the next AFAM Kit is supplied to the customer at the cost of the chain only (same or greater quality as the original kit), and the new SPROCKETS ARE SUPPLIED FOR FREE!

AFAM SPROCKET KITS are supplied with AFAM high quality STEEL sprockets and a premium EK Quadra X-Ring CHAIN cut to the exact length needed for the bike.

- The best sprockets and chain on the market!
- Excellent mileage and value!
- No messing round cutting chains!

AFAM – Sprockets & Handlebars

## AFAM Handle Bars

### Big Bars

- Oversized bars with a 28mm clamp area diameter.  
\*Fitment only with oversized bar clamps.
- Produced from special 7075T6 ALLOY for the ultimate in strength.
- Afam BIG BARS are 5mm thick at the bends, which provides increased strength, even without a cross-bar.
- Laser etched marking grids and end marks make it easy to adjust angle during fitment, or cut bars to narrow width.
- Textured left hand end of bar for better grip holding.
- High quality shot-peened anodised finish for long lasting good looks.
- Supplied with special bar pad.

Bar	Colours		Style	Height	Sweep
BMX009K	BLACK		MID/HIGH	94mm	38mm
BSD001B	BLACK		MID	74mm	50mm
BKID85	BLACK		MID	85mm	34mm

### X-Bars

- Produced from special 7075T6 ALLOY with a 5mm thickness for increased strength. (most competitors only use 4mm tube)
- Due to the extra thickness of the bar tube, the ends of the X-Bars are machined to accept standard hand guards and accessories.
- CNC machined cross bar clamps for supreme fit and security.
- Laser etched marking grids and end marks make it easy to adjust angle during fitment, or cut bars to narrow width.
- Textured left hand end of bar for better grip holding.
- High quality shot-peened anodised finish for long lasting good looks.

Bar	Colours		Style	Height	Sweep

NISSIN are widely regarded by racers, teams, manufacturers & motorcycle enthusiasts world wide as the leaders in braking products.

They offer the perfect option for OE replacement or when premium / performance parts are required.

## Brake Pads

### NS / SS Compound (Semi Metallic)

#### GENERAL PURPOSE 'STANDARD' PAD COMPOUND

- For general use in Road and Offroad applications.
- All weather stopping power.
- Very controllable feel.
- Outstanding high friction performance.
- Low impact on brake rotors.

### GS Compound (Semi Metallic)

#### HEAVY DUTY OFFROAD COMPOUND

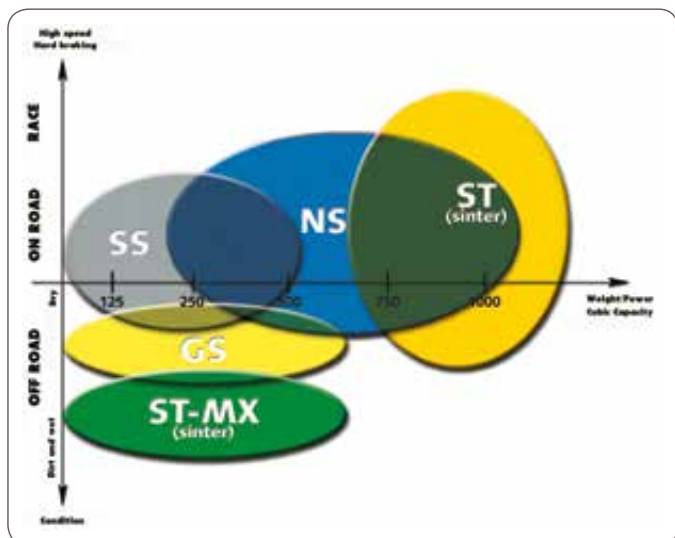

- Special offroad compound with high friction performance for exceptional stopping power in all conditions.
- Specially developed Heavy Duty compound to provide longer pad life, while providing good disc life.
- Outstanding fade resistance.

### ST / ST MX Compound (Sintered)

#### SINTERED COMPOUND FOR HIGH PERFORMANCE & LONG PAD LIFE

- NISSIN Sintered ST pads simply offer the best performance & pad life. While ST pads are perfectly suited to Racing applications, they are equally suited to every-day use where a bike requires the braking performance of a sintered pad.
- Superior braking performance in all conditions.
- High fade resistance
- Outstanding pad life when used on large road bikes (ST), and in muddy conditions on Dirtbikes (ST MX).
- ST pads for ROADBIKES – Racing, Sports, Sports/Touring, Larger Bikes.
- ST MX pads for DIRTBIKES – Racing, MX, Enduro, SuperMoto, Trail Riding.

\*For fitment listings, please consult the following pages, or your NISSIN Catalogue.

## Master Cylinders

Nissin is the largest manufacturer of brake cylinders in the world. They use this wealth of knowledge to produce high quality products to meet and exceed the high performance levels required for motorcycle applications.

'Radial', 'Slant' and 'Axial' depicts the way the lever pushes on the piston. 'Radial' & 'Slant' versions are for racing & sports use on road bikes, 'Axial' are standard brake & clutches for road bikes, & brakes for dirt bikes.

Part	Type	Use	Piston
MCBR19NB	<b>BRAKE</b> - FRONT - RADIAL	<b>ROAD</b> - RACE / SPORT	19mm
MCBS19	<b>BRAKE</b> - FRONT - SLANT	<b>ROAD</b> - RACE / SPORT	19mm

## NISSIN Discs

Nissin supply a selected range of Disc Rotors to suit OE replacement.

- Made from a special Stainless Steel that has been specially developed for motorcycle use.
- Special hole patterns designed to maximise breaking by dissipating heat & stress.
- Disc surfaces are machined to precise micron levels ensuring the smoothest possible contact area.

\* Please Check your NISSIN Catalogue for specific fitment listings.

## NISSIN Calipers

Nissin are one of the leading manufacturers for Motorcycle Brake Calipers, and are renowned for providing excellent feel & braking power.

For more on the NISSIN Caliper range, please consult your NISSIN Catalogue.

N1PL	NISSIN CALIPER 1 POT FOR ATV LEFT

# DENSO

## DENSO

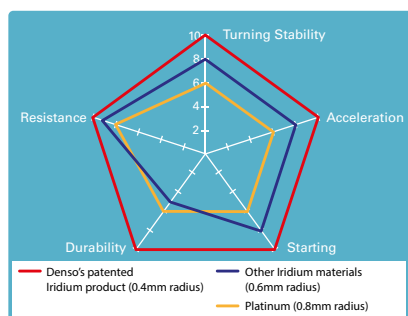

## SPARK PLUGS

### Nobody beats DENSO Plugs

**DENSO** is the world leader in spark plugs. They have a comprehensive range that will cover every application from standard plugs for every day use, to long lasting/high performance/race plugs in their Iridium Power Range.

#### DENSO OFFERS

- More intense spark.
- Improved Combustion.
- Quicker throttle response.
- Better fuel economy.
- Less plug fouling.
- Smoother idling.
- Nickel plated housing for corrosion resistance.
- Special 0.4mm centre electrode, and patented U-Groove earth electrode on Iridium power plugs.

### Iridium Power®

#### HIGH-PERFORMANCE PLUGS

DENSO Iridium Power® high-performance range redefines performance driving with the worlds smallest iridium alloy electrode diameter of 0.4mm.

The iridium electrode used in DENSO's Iridium Power® Performance plugs enables a high concentration of electrical field which requires lower jump spark voltage. This improves ignition performance, eliminates misfiring and translates into high performance driving. The lower required voltage and high ignitability from the iridium electrode also guarantees smoother idling, improved acceleration and high response driving. These plugs can withstand even the most severe conditions and have proven themselves as original equipment and racing plugs.

Employing a revolutionary 360 degree laser welding process, DENSO has created a spark plug unlike anything else on the market today. Designed for durability under the most extreme conditions, DENSO's patented iridium alloy is 6 x harder and 8 x stronger than conventional platinum and can handle temperatures in excess of 2,450°C. With an approximate life span of 150,000km, these properties make Iridium Power® long life plugs the most durable and robust in the market.

### Nickel

#### STANDARD PLUGS

A key feature of DENSO spark plugs is the patented U-groove ground electrode. This enables complete fuel combustion by allowing the spark to fill the gap created by the 'U' shape. The ball of fire created in the U-groove develops a larger and hotter flame front that virtually eliminates excessive fouling and erratic starts caused by poor fuel mixtures. The complete combustion from DENSO's U-groove design leads to greater fuel efficiency.

----------------	-----------------------------	----------

VOLTZ Battery Co Ltd. was founded in 1994, when a new state of the art facility of 30,000m<sup>2</sup> was built. Using only the latest machinery from Japan to produce a large range of lead acid batteries including the new seal gel type batteries, our output has now reached 1,000,000 pcs during 2012 making us one of the largest manufacturers in the world. With the latest technology and advanced production lines and test instruments for making battery plates, containers and assembling lead, acid, MF, AGM and gel batteries you can trust that all VOLTZ batteries are built to the highest exacting standard. The company has ISO9002 certificate since 1999.

### STANDARD 6V AND 12V BATTERIES

VOLTZ offers a wide selection of the best replacement motorcycle batteries for the leading manufacturers of motorcycles including BMW, Harley-Davidson, Honda, Kawasaki, Suzuki, Yamaha and more. We keep our inventory fully stocked, so we can get your battery shipped as quickly as possible, at an affordable price. Also available for ATV's, Golf buggies and Jet Skis and many other uses.

### MAINTENANCE FREE BATTERIES

Specifications: VOLTZ unique construction and sealing technique guarantee that no electrolyte leakage can occur from the terminals or case of any VOLTZ battery. This feature insures safe, efficient operation of VOLTZ batteries in any position. During the expected float service life of VOLTZ batteries, there is no need to check the specific gravity of the electrolyte, or add water. In fact, there is no provision for these maintenance functions. The heavy duty lead calcium-alloy grids in VOLTZ batteries provide an extra margin of performance and service life in both float and cyclic application, even in conditions of deep discharge. All of our VOLTZ MF batteries have already passed UL test. Positive plates and negative plates are made from a Lead-Calcium system. The glass fibre separators in VOLTZ MF batteries have resistance to acid. The high porosity of the separators retains adequate electrolyte for the reaction of active materials in the plates. The venting system, which operates at 1psi to 6psi(0.07-0.43kg/ ) is designed to release excess gas and keep the internal pressure within the optimum range of safety, while it protects the negative plates from contamination from oxygen in the air. Vents are 100% visually inspected during battery production. Standard case and cover are manufactured from ABS resin.

### GEL / DEEP CYCLE BATTERIES

Each Gel Cell Battery from VOLTZ is made to a new standard by which all other batteries are to be judged. Unlike flooded wet-cell batteries, gel cell batteries do not need to be kept upright. The gelled electrolyte won't spill, even if the battery is tipped upside down or cracked open. You won't have to worry about any messy acid spills or corrosion around the batteries or any of your sensitive electronics. Gel batteries boast greater resistance to extreme temperatures, shock, and vibration.

# Voltz Battery Range

The Voltz brand provides one of the most comprehensive battery ranges available – with many battery models also being available in a Sealed Nano-Gel version, and/or High Performance options.

**STANDARD • HEAVY DUTY • MAINTENANCE FREE • SEALED NANO-GEL  
H'DUTY MAINTENANCE FREE • H'DUTY SEALED AGM • H'DUTY SEALED NANO-GEL**

The battery list below shows each battery model grouped together with their optional MF / Sealed Gel / & Heavy Duty versions.

<b>B3040</b>	BATTERY ACID 12 LITRES

## Battery 'Smart' Chargers

Suitable for both traditional 'wet' batteries, and sealed AGM and GEL batteries.

- Supplied with optional permanent In-Bike leads AND standard clamp attachments.
- Over-Current protection.
- Over-Voltage protection.
- Short circuit protection.
- Reverse polarity protection.

\*B2938 is for larger applications (like automotive), and is not supplied with 'In-Bike' leads.

## WHERE IT ALL BEGAN

Ken Johnson and Norm McDonald make up the “K” and the “N” in K&N. Ken and Norm were avid motorcycle racers who started out by making a line of handlebars in the 1960's. While promoting their handlebars, they also began experimenting with different air filter designs to combat the frustrations of the air filter technology of the day.

They had found that the most successful design consisted of layers of cotton gauze sandwiched between wire mesh, and coated with oil to help trap particles. This design provided good air flow, trapped dirt particles, and allowed the filter to be cleaned and re-used. In 1969 K&N began production of these filters, and the worlds Best Air Filter was born!

*Built for racers... By racers*

## Air Filters

### ENGINE PROTECTION & AIR FILTRATION

We take filtration seriously. Anyone can make a filter that will flow more air. The trick is to flow more air safely. In our opinion, we hit the sweet spot – an optimal blend of high air flow, filtration efficiency, durability and dust capacity – and our filters are re-usable.

K&N Air Filter media has been tested both in-house and by independent labs using the ISO5011 test developed by the Society of Automotive Engineers. In addition, we test many of our filters both in and out of the OE airbox ensuring proper fit and function. Our goal is to design filters with the maximum possible airflow achievable while providing guaranteed engine protection.

K&N has a massive range of specific and universal filters to suit almost any application, and provide the optimum balance of performance and protection.

#### FEATURES

- High air flow
- Excellent filtration
- Designed to increase horsepower and acceleration
- Pre-Oiled and ready for use.
- Washable and Reusable
- Will NOT void vehicle warranty
- Lasts up to 50,000 miles before cleaning is required (depending on driving conditions)
- K&N Million Mile Limited Warranty®
- Economical – a K&N Air Filter will last the life of your Automobile, Motorcycle, or ATV.
- Works with original equipment manufacturer vehicle electronics
- Easy high performance add-on
- Environmentally friendly

*\*FOR SPECIFIC FITMENT LISTINGS, please consult your K&N catalogue, or visit [www.knfilters.com](http://www.knfilters.com)*

## TESTING – LABORATORY AND REAL WORLD

K&N uses independent laboratories to help ensure that our products meet or exceed your high performance and high filtration demands. Better yet, we conduct our own testing at our own state-of-the-art in-house testing laboratory. For more information on K&N air filters and testing go to the K&N Technical Learning Center area on the website.

### K&N AIR FILTERS ARE TESTED FOR THE FOLLOWING:

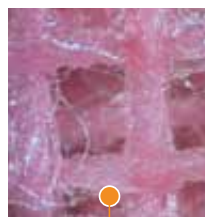

- Air Flow. For optimum performance.
- Air Filtration. To ensure that the filter provides performance while doing its primary job – protecting your motor.
- Power & Torque gains. K&N always aims to give a power gain, while maintaining an exceptional level of filtration protection for your motor.
- Vibration testing. K&N use vibration testing on their filters and frames to ensure that their filters will last the test of time and withstand damage that could cause filtration problems.

## THE IMPORTANCE OF OIL

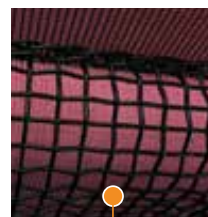

A K&N Air Filter is made of 4 to 6 layers of cotton gauze sandwiched between two epoxy-coated aluminum wire screens. The cotton is treated with a specially formulated grade of oil causing tackiness throughout the cotton's microscopic strands. The nature of the cotton allows high volumes of airflow, and when combined with the tackiness of the oil creates a powerful filtering media that ensures engine protection. In contrast, most other media can not maintain the same balance of airflow and filtration throughout the filter's life without sacrificing one or the other. **With a K&N Air Filter, there is no sacrifice.**

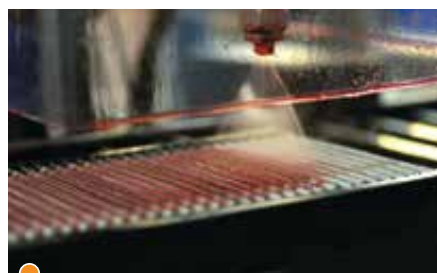

Extensive 'bench' testing for flow & filtration

Oiled filter media

Media with protective mesh

Oil application

Moulded filter frames are designed to fit perfectly into your OE air box assembly.

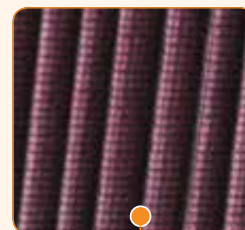

4-6 layers of premium cotton gauze is used to help provide the highest levels of air flow and filtration.

The gauze filter media is pre-oiled and ready for use.

K&N's filter gauze has an extremely long life span, and is completely washable and re-usable.

One-piece seamless sealing bead ensures an air-tight fit.

Pleated 'accordion' fold design in filter surface provides more surface area for more breathability and filtration capacity.

Epoxy coated aluminium mesh screen protects filter media.

\*FOR SPECIFIC FITMENT LISTINGS, please consult your K&N catalogue, or visit [www.knfilters.com](http://www.knfilters.com)

## Replacement Air Filters

K&N's replacement air filters are a perfect addition to almost any road bike or ATV. They fit perfectly into the standard air-box, provide a power increase in almost all cases. They are designed to provide longer service intervals, and are washable and re-usable to provide an extremely long life span.

\*There are also race versions available for selected models.

## AirCharger Performance Air Intake Kits

K&N's AirCharger Performance Intake Kit will get more horsepower from your Harley-Davidson® motorcycle. K&N's air intake for Touring Models gained an amazing 12.92 HP and K&N's air intake for Softail Models gained 10.21 HP. This High-Flow Intake System eliminates the restrictive stock OE air cleaner and replacing it with a K&N High-Flow Air Filter & mandril bent aluminum intake tube.

## X-Stream Dirt Bike & Supermoto Filters

With the current rage in 4 stroke technology, the K&N X-Stream Filter provides a great option for dirt bikes. The increased filtration area provides more air-flow while the 4 layers of woven premium cotton media allow for increased filtration. The X-Stream filter provides good performance gains, and its two piece design makes installation, changing and cleaning a breeze.

## Universal Air Filters, Pods & Vent Filters

K&N's Universal Air Filters are designed and manufactured for a massive variety of applications. Regardless of the angle or, offset diameter of the air intake, there is a K&N Universal air filter for your equipment.

All filters are constructed with ultra-strong moulded pliable rubber flanges which absorb vibration and allow for secure attachment and can also be stretched up to 1/16" (1.5mm) to fit in-between sizes. K&N Universal air filters are available in round, tapered (cone style) and oval designs, for just about any special application.

K&N also make a massive range of Crankcase Vent Filters. There are many sizes and styles available, including Steel Based models, Rubber Based Models, and steel or rubber based models with Shields.

\*FOR SPECIFIC FITMENT LISTINGS, please consult your K&N catalogue, or visit [www.knfilters.com](http://www.knfilters.com)

## Oil Filters

### K&N Premium Wrench-Off Oil Filters

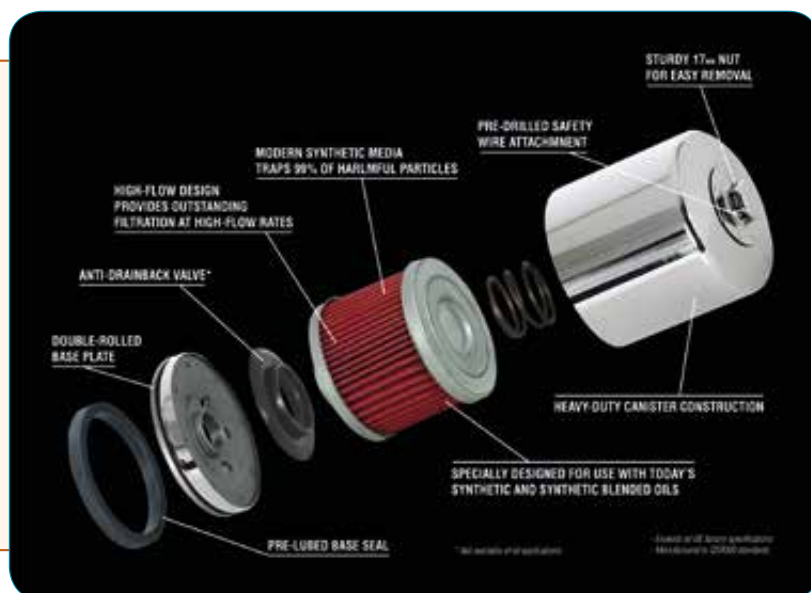

Originally developed for demanding auto race applications, our premium oil filters are rapidly becoming a favourite among consumers for their outstanding reliability, durability and easy removal.

#### Our Oil Filters Have Nuts

We have all been there: Whether it's remembering where that disappearing canister tool is; or having oil leak all over your garage and yourself; or finally giving up and pounding a screwdriver through the filter just to get it off. Most of our canister type motorcycle and ATV oil filters come with a 17 mm nut.

#### Durable Construction for Extreme Conditions

We use thicker canister walls for extra strength & durability which reduces the risk of damage from debris. They will also withstand higher oil pressures found only in racing environments. The drilled hole on the nut is for a safety wire attachment – Required for many types of racing to prevent blown oil filters from falling on the track and representing a hazard.

#### High-Flow Rate

Our oil filters use resin impregnated cellulose filter media. This allows for higher flow rates while providing outstanding filtration. High filter flow rates are important in racing vehicles where the oil is pumped much faster than in a standard vehicle. When the engine is circulating oil at high GPM rates, the high-flow oil filter helps reduce the loss of pressure through the filtering process.

#### Compatible with the Latest in Synthetic Engine Oils

Our oil filters are ideal for high-end synthetic motor oil. Synthetic motor oil is said to offer improved flow performance at cold temperatures while providing superior protection against thermal degradation.

#### Canister Type Oil Filters

Drilled safety wire holes for racing in canister oil filters

- Most have sturdy 17 mm wrench nut where applicable to make oil filter removal quick and easy
- Heavy-duty construction
- Resin-impregnated filter media provides maximum filtering surface for contaminant removal
- Anti-drainback valve (where applicable) eliminates dry starts, prevents oil from draining back into crankcase during engine shutdown
- Internally lubricated gasket provides positive seal while allowing easy on and off of filter
- Rolled threads provide extra protection against stripping
- Traps 99% of harmful contaminants

*\*FOR SPECIFIC FITMENT LISTINGS, please consult your K&N catalogue, or visit [www.knfilters.com](http://www.knfilters.com)*

## K&N Service Items

Aerosol

Squeeze

### Recharger Filter Care Service Kit

#### AEROSOL

A six-step maintenance system designed to clean any K&N Filtercharger® Air Filter. Restores air flow efficiency so your K&N Filter performs like new!

#### INCLUDES:

6.5 oz. Spray Oil & 12 oz. Filter Cleaner  
#99-5000

#### SQUEEZE

Same as 99-5000 except has squeeze oil bottle instead of spray can.

#### INCLUDES:

8 oz. Squeeze Oil & 12 oz. Filter Cleaner  
#99-5050

Aerosol

Squeeze

Pillow Pack

### K&N Filtercharger Oil

K&N Air Filter Oil is the only oil specially formulated to work in combination with the cotton fabric in K&N Filtercharger® elements providing a superior air filtration system. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric. Saturation is maintained until the element is cleaned with K&N Air Filter Cleaner.

6.5-oz. aerosol can – Red #99-0504  
12-oz. aerosol can – Red #99-0516  
8-oz. squeeze bottle – Red #99-0533

0.5-oz. pillow pack – Red #99-11312  
1-gal. refill bottle – Red #99-0551  
5-gal. pail – Red #99-0555

Small Spray Bottle

Trigger Spray Bottle

### K&N Filter Cleaner & Power Klean Degreaser

#### K&N AIR FILTER CLEANER

K&N Air Filter Cleaner is the only cleaner formulated to clean K&N Filtercharger™ air filters with cotton media. The use of any other cleaning solution can void the filter's warranty, and quite possibly could damage the cotton material.

12-fl. oz. small spray bottle #99-0606  
32-fl. oz. trigger spray bottle #99-0621  
1-gal. refill bottle #99-0635  
5-gal. Pail #99-0640

#### K&N POWER KLEEN

K&N Power Klean Cleaner works to dissolve the dirt build up and old filter oil, and can be washed away with water. It is so good at cleaning greasy dirt and grime that it is also used as an industrial strength degreaser. Complete instructions on bottle. **NOTE: Do not use on polished or anodized aluminum.**

### K&N Sealing Grease

K&N Sealing Grease provides an airtight fit around sealing surfaces on all types of air filter elements. It resists heat and will not melt or run off. K&N sealing grease is not to be used on clamp-on filter elements.

6-oz. squeeze tube #99-0704  
1-oz. squeeze tube #99-0703-1

**never  
FLAT**

## CTA Bike Shine

CTA BIKE SHINE, was developed over 20 years ago for the specific purpose of keeping your pride and joy sparkling and protected from the elements. It is Australian made and offers superior protection to rubber surfaces and gives a long lasting shine to all surfaces including plastics, glass.

## CTA Brake Cleaner

CTA BRAKE CLEANER, this Australian made cleaner is great for those brake cleaning jobs as it removal grease and dirt and is quick drying for easy clean ups, it is also handy for electrical contacts as it is deep penetrating to remove any build ups. Give it a try you will be impressed.

C8500	CTA Brake+Contact Clean 300g/450ml
C8700	Carlisle Bike Shine 300g/450ml

## Diggers Kerosene

DIIGGERS KEROSENE, now available in 20lt drums for all your workshop cleaning needs.

## Shellite

SHELLITE is used for all your cleaning needs and is great for degreasing and cleaning all engine parts and is safe to use on bearing leaving no residue behind.

CH1	Kerosene UN1223 20Lt
CH2	Shellite UN1268 20Lt

## Never Flat

**never  
FLAT**

When a puncture occurs, NEVER FLAT is forced into the opening by internal air pressure and upon contact with the outer atmosphere, bonds to the tyre creating a permanent seal of flexible fibres.

Never Flat Permanently Seals punctures in the tread area up to 6mm in diameter. The bottle is supplied with a valve removing cap. NEVERFLAT available in convenient 1lt, 500 ml and 250 ml bottles.

NF250	NEVER FLAT 250ml
NF500	NEVER FLAT 500ml
NF1000	NEVER FLAT 1 litre
NF5000	NEVER FLAT 5 litre with pump
NF10000	NEVER FLAT 10 litre
NF20000	NEVER FLAT 20 litre
NFP	NF pump – stainless steel 10/20L

Rock Oil has vast motorcycle and automotive racing experience, and have had many British & World Championship successes. They use this experience to ensure that they are at the forefront of lubrication technology.

With today's machinery, lubricants have to work harder than ever to ensure maximum performance and reliability. Rock Oil has succeeded in developing a range of premium lubes and accessories to cater for all 2 and 4 stroke machines, and each product has been specifically engineered to perform a specific task, ensuring that Rock Oil has a product that will surpass your machine's performance and protection needs.

## 4 Stroke Oils

Many 4 stroke motorcycles have shared engine and gearbox oil supply which necessitates the need for a lubricant to perform a specific role in lubricating the engine, whilst also ensuring precise clutch engagement with no slippage.

There are many misconceptions regarding the suitability of synthetic products and which oils are able to perform effectively under these conditions.

To say 'a synthetic oil will cause clutch slip' is simply incorrect. A proper synthetic motorcycle engine oil is the best possible product for most applications. Where the confusion has arisen in many cases is the use of incorrectly specified oils such as automotive lubricants with incorrect additives being used in motorcycle applications.

ALL ROCK Oil 4 Stroke motorcycle oils have been specifically engineered to perform, protect and excel in the harshest motorcycling conditions.

R13060	ROCK TRM SYNTHETIC 20W60 60LT

XRP is simply the ultimate in Synthetic performance & protection. Developed in collaboration with leading international racing teams, it has been formulated to release more net engine power. Dyno testing has shown increases of up to 5%, while delivering the highest possible levels of protection & reliability, under the worst conditions. API SL JASO MA / MA2

Synthesis 4 Racing has lubricated the engines for many British and international champions. It has been created with the use of the most cutting edge PAO & Ester base stocks, and coupled with the latest additive technology to provide excellent clutch feel, with outstanding performance and protection to all engine components under the harshest conditions.

API SL JASO MA / MA2

TRM is an exceptional lubricant for highly stressed 4 Stroke engines, including V-Twins in performance applications. It is a specifically formulated synthetic oil with large molecule base fluids and a unique additive package.

Suitable for both roller or plain bearing crank shafts, V-Twin engines, air or liquid cooled engines, and is also a superb gear lubricant. API SL JASO MA

R16060	ROCK GUARDIAN SEMI-SYN 15W50 60LT
R16210	ROCK GUARDIAN SEMI-SYN 15W50 210LT

Guardian Semi-Synthetic Oils are premium grade oils with Advanced Additives & high detergent levels to ensure maximum component protection & resistance to deposits & corrosion. It has been formulated for rapid cold start circulation, optimum clutch friction, & has extremely low phosphorous levels for excellent compatibility with modern catalysts. It is suitable for all modern 4 Strokes, and performs extremely well in high performance applications. API SL JASO MA /MA2

## **CITY 4** – Semi-Synthetic for Scooters

R17001	ROCK CITY 4 SCOOTER SEMI-SYN 1LT
--------	----------------------------------

City 4 is a new generation, high grade Semi-Synthetic oil with advanced additives designed to work perfectly with both air cooled & water cooled Scooters. Its high detergent formula ensures maximum engine component protection, resistance to deposits & corrosion, resulting in outstanding valve train and component protection & extended engine life. API SG JASO MA

## **GAMMA** – High Quality Mineral

R18001	ROCK GAMMA 20W50 1LT
R18004	ROCK GAMMA 20W50 4LT
R18025	ROCK GAMMA 20W50 25LT
R18060	ROCK GAMMA 20W50 60LT
R18210	ROCK GAMMA 20W50 210LT

Gamma is a high quality Mineral 4 Stroke oil designed to meet the demands of both classic bikes and modern performance engines that are able to use a mineral based oil. Advanced additives ensure engine component protection & resistance to deposits & corrosion. It has rapid cold start circulation, and excellent clutch friction properties. API SG JASO MA

## **SYNTHESIS 2 Racing** – Premium High Performance Fully Synthetic

R21001	ROCK SYNTHESIS 2 RACING 1LT
R21004	ROCK SYNTHESIS 2 RACING 4LT
R21025	ROCK SYNTHESIS 2 RACING 25LT

Synthesis 2 Racing is one of the most advanced 2 Stroke oils on the market. All engines can benefit from advanced synthetic additives to help prevent problems like ring sticking, port blocking and cylinder wear. The phenomenal film and sheer strengths of this oil give supreme protection, and maximise the power and reliability of the engine. Can be used up to 50:1 following manufacturers guidelines. API TC JASO FC ISO-L-EGD

## **K2 Plus** – High Performance Synthetic

R22001	ROCK K2 PLUS SYNTHETIC 1LT
R22004	ROCK K2 PLUS SYNTHETIC 4LT
R22025	ROCK K2 PLUS SYNTHETIC 25LT

K2 Plus is a highly acclaimed Synthetic oil that is made with some of the most advanced additive technology. It has been extensively tested under all racing conditions, and is suitable for all machines requiring a high quality 2 Stroke Oil. It has an extremely low ash, clean burning formula that provides maximum film & sheer strength, superb engine cleanliness, & significantly improved bore & piston life. API TC JASO FC ISO-L-EGD

## **STRAWBERRY 2 STROKE** – Performance Synthetic

R23001	ROCK STRAWBERRY 2 STROKE SYN 1LT
--------	----------------------------------

Strawberry 2 is a high performance Synthetic 2 Stroke oil that has been developed using motorsport experience. It has an advanced, extremely clean burning low ash formula that gives off a strawberry scent, and provides excellent engine cleanliness.

It is suitable for all injector applications, and pre-mix applications up to 50:1. API TC JASO FC ISO-L-EGD

## CITY 2

– Semi-Synthetic for Scooters

R25001

ROCK CITY 2 SCOOTER SEMI-SYN 1LT

City 2 is a high grade Semi-Synthetic 2 Stroke oil that is designed specifically for scooters in either pre-mix, or oil injector systems. Its Synthetic additives, low ash formula, high shock loads & shear strength provides excellent protection for crank shafts & pistons, and offers a high resistance to harmful pre-ignition.

API TC JASO FC ISO-L-EGD

## ROAD 2 STROKE

– 2 Stroke oil for ALL USES

R26001

ROCK ROAD 2 STROKE 1LT

R26004

ROCK ROAD 2 STROKE 4LT

R26025

ROCK ROAD 2 STROKE 25LT

Road 2 Stroke oil has been designed to meet the needs for ALL Road & Dirt applications where a mineral based 2 Stroke oil is applicable. It has extreme film strength that is rarely seen in a mineral based 2 Stroke oil, and provides excellent protection & year round reliability. It is suitable for all pre-mix or injection systems, whether air or liquid cooled. API TC JASO FB

## STRAWBERRY 2 STROKE

– Performance Synthetic

R27001

ROCK SYN 2 KART 1LT

R27004

ROCK SYN 2 KART 4LT

R28001

ROCK RACING CASTOR OIL 1LT

R28005

ROCK RACING CASTOR OIL 5LT

R29001

ROCK KART 100 CASTOR SYNTHETIC OIL 1LT

Rock Oil has many wins in karting and the oil is specifically developed to give you max performance and reliability. Racing Syn 2 is a fully synthetic formula that will give you that extra horse power required to pass your rivals.

Racing Castor Oil is a traditional straight vegetable oil of SAE 40 viscosity lubrication. It meets the continuing demand for high performance castor lubricant, preferred in speedway, grass-track and vintage machines, offering high sheer stability even under the most severe conditions. It is suitable for all total loss and re-circulating systems on 4 Stroke engines, and for use as a pre-mix for 2 Strokes with either petrol or methanol.

## MP3 Sport

– Marine 2 Stroke Oil

R30001

ROCK MP3 MARINE 2 STROKE 1LT

R30004

ROCK MP3 MARINE 2 STROKE 5LT

R30025

ROCK MP3 MARINE 2 STROKE 25LT

Rock Oil is a leader in powerboat racing, and they have used this technology to make **MP3 Sport** - an all-new marine/outboard 2 Stroke oil specifically designed for high performance use. The most advanced additives ensure easy starting & clean running even under continuous use, & give maximum protection to the piston & crankshaft. For use in pre-mixed or injector applications. NMMA APPROVED TC-W3

## GRO - Gearbox Racing Oil

– Premium Synthetic Gear Oil

R32001

ROCK RACING GEAR OIL SYN 1LT

R32005

ROCK RACING GEAR OIL SYN 5LT

R32025

ROCK RACING GEAR OIL SYN 25LT

GRO (Gearbox Racing Oil), is a premium synthetic lubricant designed for all racing & high performance motorcycles.

The thermally sensitive construction ensures optimum performance in all conditions. It has extremely low drag characteristics, whilst retaining outstanding resistance to the severe shock loadings that occur during racing conditions. GRO is a 75W/90 and is recommended for all performance transmissions, but it is also suitable for all transmissions where SEA 10w40, 20w50 or 30w is recommended. SAE EP 75W/90 API GL-4

## LITE GEAR OIL

– High Performance Semi-Synthetic Gear Oil

R33001

ROCK LITE GEAR OIL SEMI-SYN 1LT

R33005

ROCK LITE GEAR OIL SEMI-SYN 5LT

R33025

ROCK LITE GEAR OIL SEMI-SYN 25LT

Lite Gear Oil is a unique, lightweight, high performance, synthetic enhanced lubricant designed for use in sporting and competition transmissions where the primary drive, clutch & gearbox components require a high shock load resistance for optimum lubrication.

Light weight clutch operation is maintained with minimal friction losses through the transmission.

LGO is suitable for both wet and dry clutch systems, and all performance transmissions, including where SAE 10W/30 EP 75W/85 is recommended.

Part Number	Title
<b>EP 80w90 GEAR OIL</b> – Gear & Diff Oil	
R36001	ROCK HYPOID GEAR 80W90 1LT
R36005	ROCK HYPOID GEAR 80W90 5LT
R36025	ROCK HYPOID GEAR 80W90 25LT

Rock Oil EP Gear Oils are extreme pressure lubricants suitable for all gearbox and differential applications where API specification GL4 is suitable.

An advanced additive package has been used to provide optimum performance and protection under extreme conditions. It has excellent thermal stability, anti-corrosion, anti-oxidation and anti-foaming properties. API GL-4

## Suspension Fluids

Part Number	Title
<b>SVI</b> – Semi-Synthetic Suspension Fluids (2.5WT is FULL Synthetic)	
R40201	ROCK SUSP FLUID SYNTHETIC 2.5WT 1LT
R40205	ROCK SUSP FLUID SYNTHETIC 2.5WT 5LT
R40225	ROCK SUSP FLUID SYNTHETIC 2.5WT 25LT
R40501	ROCK SUSP FLUID SEMI-SYN 5WT 1LT
R40505	ROCK SUSP FLUID SEMI-SYN 5WT 5LT
R40525	ROCK SUSP FLUID SEMI-SYN 5WT 25LT
R40701	ROCK SUSP FLUID SEMI-SYN 7.5WT 1LT
R41001	ROCK SUSP FLUID SEMI-SYN 10WT 1LT
R41005	ROCK SUSP FLUID SEMI-SYN 10WT 5LT
R41025	ROCK SUSP FLUID SEMI-SYN 10WT 25LT
R41501	ROCK SUSP FLUID SEMI-SYN 15WT 1LT
R42001	ROCK SUSP FLUID SEMI-SYN 20WT 1LT

SVI Fluids are High Performance suspension fluids that have been developed through many years of testing on the Grand Prix circuit, and are perfect for use in all road and off-road applications in front or rear suspension.

SVI fluids have a special fortified formula to provide the following:

- Fade-free performance.
- Longer service intervals.
- Excellent anti-wear protection for suspension internals.
- Outstanding resistance to water contamination and degradation.

Suitable for:

- All modern suspension applications.
- High performance road, off-road and competition applications.
- Front or rear suspension units.
- Air or nitrogen charged units.

## Lubes & Grease

Part Number	Title
<b>CHAIN LUBE</b> – Premium lube for all sealed & non-sealed chains	
R51200	ROCK CHAIN LUBE 200ML
R51400	ROCK CHAIN LUBE 400ML
R51600	ROCK CHAIN LUBE 600ML
<b>CHAIN WAX</b> – Synthetic wax lube for all sealed & non-sealed chains	
R52400	ROCK CHAIN WAX SPRAY 400ML

Rock Oil Chain Lube is used by some of the world's top riders in road and off-road racing. Its advanced formula penetrates quickly to achieve 100% penetration, and then thickens off. It is perfect for use on all kinds of standard, O-Ring and X-Ring style chains, and has excellent anti-shock and anti-fling properties.

Chain Wax offers the latest developments in synthetic lubrication, engineered to give the ultimate protection for O-Ring, X-Ring or non-sealed performance chains. It is thin on application to penetrate all surfaces, & after a suitable drying time it dries into a highly slippery wax-like film. It has excellent shock load properties, and is highly resistant to fling and water washout once it has set. As it has a non-tacky finish, so it also attracts less dust and air-born particles.

Part Number	Title
<b>ROCKEZE</b> – Penetrant and lube	
R54400	ROCK ROCKEZE PENETRANT LUBE 400ML
R54005	ROCK ROCKEZE PENETRANT LUBE 5LT
<b>SHOCK GUARD GREASE</b> – High Performance Molythium Grease	
R56500	ROCK SHOCKGUARD GREASE 500GM
<b>MPG MARINE GREASE</b> – High Quality Waterproof Grease	
R57500	ROCK MARINE W'P GREASE 500GM
R57003	ROCK MARINE W'P GREASE 3KG
R53500	ROCK OIL ANTI-SEIZE COPPER 500G

Rockeze is a powerful penetrating spray & light anti-rust fluid formulated to prevent corrosion and repel moisture.

Rockeze has extremely fast lubricating properties, and it can be used to free rusted parts, protect engine components, as a dampness remover for electrical contacts, lubricate and protect components, or any situation where a light lube or protector is needed.

Shock Guard Grease is a premium grade Molythium grease for multi purpose use. It provides a very high degree of shock resistance, wear protection, corrosion resistance, and works extremely well in high load and dusty environments.

While it is called Marine Grease, this lithium based grease with a zinc oxide additive has excellent waterproof & holding qualities that make it perfect for most motorcycle applications.

## Fluids & Cleaners

Part Number	Title
<b>FACTORY ECO FOAM</b> – Synthetic Water Washable Air Filter Fluid	
R61001	ROCK ECO SYN WATER WASH FILTER OIL 1LT
<b>FACTORY FOAM FILTER OIL</b> – Premium Synthetic Air Filter Oil	
R62001	ROCK FOAM FILTER OIL 1LT
R62005	ROCK FOAM FILTER OIL 5LT
R62025	ROCK FOAM FILTER OIL 25LT
R63400	ROCK FOAM FILTER OIL AEROSOL 400ML
<b>FACTORY FOAM FILTER KLEEN</b> – For use with all petroleum based filter oils	
R93005	ROCK FOAM FILTER CLEAN + BUCKET 5LT
<b>KOOL</b> – Premium Pre-Mixed Coolant	
R65001	ROCK KOOL PRE-MIX COOLANT 1LT
R65005	ROCK KOOL PRE-MIX COOLANT 5LT
R65025	ROCK KOOL PRE-MIX COOLANT 25LT
<b>BRAKE FLUID DOT 4</b> – High Quality DOT 4	
R67500	ROCK BRAKE FLUID DOT 4 500ML
R67005	ROCK BRAKE FLUID DOT 4 5LT

Synthetic Water Washable Air Filter Fluid has been specially developed to offer an easy to use option to 'normal' filter oils. It offers extremely high levels of particle filtration, resists 'dropping out', & adds the convenience of being able to wash it out under your tap. It is a non-mineral, water soluble fluid that is safe for the environment, & can be safely washed away down normal drains. This exceptional performance & flexibility lead it to win a test in a major USA magazine against many of the leading brands fluids.

Rock Oil's EP Synthetic Filter Oil provides complete protection against the ingestion of airborne debris to the engine, while maintaining maximum air flow to allow peak performance. Tested in every situation from deserts to bog holes, Rock Oil's filter fluid provides outstanding performance and safety for your bike. It has been engineered to be thin and workable upon application, but becomes perfectly tacky when left to dry out.

Foam Filter Cleaner is designed to be the best filter cleaner available. It dissolves filter fluids, removes dust, and keeps the particles in suspension to aid cleaning. After washing the filter in the bucket provided, the filter can be rinsed under running tap water, and the filter should be allowed to dry naturally.

KOOL is a high quality pre-mixed coolant. In recent years, it has become synonymous with safe engine temperatures and protection from corrosion. It was developed in association with Rock Oil's international motorsport involvement, and is suitable for both racing and every day use. It offers total protection from -38°C to operating temperatures over 170°C.

Rock Oil Brake Fluid is a high quality fluid for use in all brake & clutch applications where DOT 4 is specified. Its formula is resistant to fade, and mixes safely with all SAE, DOT3 & DOT4 approved brake and clutch fluids.

Part Number	Title	
<b>BRAKE FLUID DOT 5.1</b> – High Quality DOT 5.1		5.1 Brake Fluid is a non-Silicone based, performance fluid for use in all brake & clutch applications where DOT 5.1 is specified, particularly suited to high performance vehicle with ABS. Mixes safely with all SAE J1703, DOT3, DOT4 & DOT5.1 approved brake and clutch fluids.
R69500	ROCK BRAKE FLUID DOT 5.1 500ML	
<b>RACING BRAKE FLUID</b> – Premium High Performance DOT 4		Racing Brake Fluid has been exclusively developed to meet the special needs of disc brakes in racing applications. The special formula with excellent bulk modules provides the ability to deal with 300°C temperatures, while offering outstanding pedal/lever firmness, and resists moisture contamination. SAE J1703, SAE J1704
R68005	ROCK BRAKE FLUID DOT 4 *RACING* 500ML	
<b>XRP FUEL ENHANCER</b>		XRP Fuel Enhancer is a carefully balanced formulation based on light hydrocarbon fractions & components, which primarily enhances the octane rating of unleaded fuel. This provides better throttle response, engine cleanliness, and valve seat protection. 250ml will treat 40lt of fuel.
R70250	ROCK XRP FUEL ENHANCE & CLEAN 250ML	
<b>BOOST</b> – Octane Booster		Boost is an advanced formula octane enhancer suitable for all 2 and 4 Stroke engines. Boost enhances the fuel's octane rating, improves the flame spread on ignition for greater combustion efficiency, combating pre-ignition & 'pinking' whilst improving overall performance.
R71800	ROCK BOOST OCTANE BOOSTER 800ML	
<b>BIKE SHINE</b> – Silicone Protect and Shine Spray		Bike Shine is a fast shining blend of cleaning solvents & Silicones. It removes oils and stains, and brings vinyl, paint work & plastics back to a sparkling finish. Can also be used on glass/Perspex, or as a stain free lubricant on linkages or locks.
R73400	ROCK BIKE SHINE SILICONE SPRAY 400ML	
<b>KONTACT KLEEN</b> – Aerosol Brake and Contact Cleaner		Kontakt Kleen has been formulated to remove hydrocarbon deposits, oil & dirt from most types of electrical apparatus. Kleen is non-toxic, non-corrosive, & possesses highly effective water removing properties, evaporating to leave no residue so it is excellent for cleaning before sticker placement.
R74400	ROCK KONTACT KLEEN 400ML	
<b>SOC OIL CLEANER</b> – Soluble Oil Cleaner		S.O.C. is a kerosene based cleaner with anionic & non-anionic surfactant additives. This provides a superior product that has a high speed & efficiency at removing oily residues, & helps to hold dirt particles in suspension which allows faster cleaning.
R75001	ROCK SOLUBLE OIL CLEAN 1LT TRIGGER	
R75005	ROCK SOLUBLE OIL CLEANER 5LT	
<b>BIO WASH</b>		Bio-Wash is a multi-purpose detergent designed for cleaning most forms of dirt, oils and greases. It has a pH slightly higher than 8, which makes it virtually non-caustic, and safe to use on aluminium and paintwork. Bio-Wash is harmless to the environment, and can be safely washed down the drain.
R77001	ROCK BIO WASH TRIGGER SPRAY 1LT	

Rock Oil

**LUCAS**  
MOTORCYCLE OIL

Lucas High-Performance Motorcycle Oils are the result of technology gained through years of blending motor oils and gear oils for the racing, industrial and agricultural industries.

Lucas Oil is trusted by professionals throughout the world to protect their racecars, trucks and machinery, and now you can trust it to protect your motorcycles and ATV's!

Lucas offers a full line of motorcycle oils that far exceed all OEM specifications for the motorcycle and ATV industry. Lucas Motorcycle Oil will lower oil temperature, extend the life of your vital components, reduce noise, reduce leaks and increase performance.

On top of all that, it will outlast other oils up to 4 times as long!

Lucas Motorcycle oils can be used in any motorcycle or ATV engine, air cooled or water cooled. Give Lucas a try and experience the results for yourself!

## Full Synthetic 5W-30

Synthetic SAE 5W-30 - Formulated to lower engine temperatures and raise oil pressure, reduce noise and increase performance. Synthetic SAE 5W-30 Motorcycle Oil contains a high level of detergents and dispersants to resist sludge and varnish formation which offers maximum protection with minimum drag.

### KEY BENEFITS

- Lower oil temperatures
- Longer oil life
- Longer component life
- Less noise, fewer leaks
- Meets or exceeds: API SG / SF / CC / CD, JASO MA & JASO MA-2, ACEA A3

L1000	5W-30 FULL SYN 946ML
-------	----------------------

## Full Synthetic 10W-50

Synthetic SAE 10W-50 - Formulated with clutch saving technology, a must for wet clutch applications and high RPM engines. Use in ALL air-cooled and water-cooled 4-stroke Engines that call for SAE 10W-50 motor oil.

### KEY BENEFITS

- Lower oil temperatures
- Longer oil life
- Longer component life
- Less noise, fewer leaks
- Meets or exceeds: API SG / SF / CC / CD, JASO MA & JASO MA-2, ACEA A3

L1001	10W-50 FULL SYN 946ML
L1005	10W-50 FULL SYN 5LTR
L1060	10W-50 FULL SYN 60LTR
L1208	10W-50 FULL SYN 208LTR

## Full Synthetic 20W-50

Synthetic SAE 20W-50 - Formulated with clutch saving technology, a must for wet clutch applications and high RPM engines. Use in ALL air-cooled and water-cooled 4-stroke Engines that call for SAE 20W-50 motor oil.

### KEY BENEFITS

- Lower oil temperatures
- Longer oil life
- Longer component life
- Less noise, fewer leaks
- Meets or exceeds: API SG / SF / CC / CD, JASO MA & JASO MA-2, ACEA A3

L1101	20W-50 FULL SYN 946ML
L1105	20W-50 FULL SYN 5LTR

## 50W V-TWIN

API SL Certified, Lucas Synthetic SAE 50w MC Oil is specially formulated with the finest base oils and exclusive Lucas high performance additives for all 4-stroke air cooled V-Twin / Opposed Twin / Slant Twin engines made after 1984. Lucas Oil has put all of its race bred technology into this oil to help your engine run cooler, smoother, and longer. Road testing indicates significant reduction in operating temperature. Numerous testimonials support product performance.

### KEY BENEFITS

- API SL Certified
- Quiets Engines
- Excellent Thermal Stability
- Reduces Operating Temperatures
- Resists Oil Oxidation
- Minimizes Metal-On-Metal Wear
- Extends Oil Drain Intervals
- Extends Life of Engine
- Full Synthetic Formulation
- Special Additives Provides The Highest Performance Possible

L1301

50W-V TWIN FULL SYN 946ML

## 75W-140 Gear Oil

Lucas Synthetic SAE 75W-140 Motorcycle V-Twin Gear Oil is a blended with the highest quality synthetic base oil and a Lucas Synthetic Additive Package that makes it superior to any other motorcycle oils.

Designed especially for V-Twins but works excellent for use in any heavy duty or high performance transmission.

Expect a cool quiet performance with minimum wear and minimum drag.

### KEY BENEFITS

- Cool & Quiets
- Stands up to high power and high temperature
- Designed especially for V-Twins but works excellent for use in any heavy duty or high performance transmission
- Meets or exceeds all OEM requirements

L1311

75W-140 Gear Oil 946ML

## Primary Chaincase Oil

Lucas HD Primary Chaincase Oil is a blend of easy flowing base oils and a Lucas additive package designed to carry away more heat from the clutch plates and friction plates. This assures a longer more trouble clutch life. Expect a smooth clutch action, less slippage, longer chain and sprocket life and a much longer oil life.

### KEY BENEFITS

- Cool & Quiets
- Designed for heavy duty high performance situations.
- Meets or exceeds all OEM requirements

\*\*Remember -Primary Chaincase Oil is a coolant for the clutch, not a lubricant.

## Semi Synthetic 10W-40

Lucas Semi Synthetic SAE10W/40 high performance motorcycle oil is formulated with an exclusive additive package that is not found in other brands. It contains a high level of detergents & dispersants to resist sludge and varnish formation. Lucas 10W/40 semi synthetic is formulated to lower engine temperature and raise oil pressure reduce noise and increase performance. It offers maximum protection with minimum drag. Lucas 10W/40 Semi synthetic far exceeds all OEM specifications.

### KEY BENEFITS

- Lower oil temperatures
- Longer oil life
- Longer component life
- Less noise, fewer leaks
- Meets or exceeds: API SG / SF / CC / CD, JASO MA & JASO MA-2, ACEA A3

## Mineral 20W-50

Lucas SAE 20W-50 High Performance Motorcycle Oil is formulated with an exclusive additive package that is not found in other brands. It contains a high level of detergents to resist sludge and varnish formation. Lucas SEA 20W-50 High Performance Motorcycle Oil is formulated to lower engine temperatures and raise oil pressure, reduce noise and increase performance. It offers maximum protection with minimum drag. The exclusive additive package in Lucas SAE 20W-50 High Performance Motorcycle Oil allows for extended drain intervals.

### KEY BENEFITS

- Lower oil temperatures
- Longer oil life
- Longer component life
- Less noise, fewer leaks
- Meets or exceeds: API SG / SF / CC / CD, JASO MA & JASO MA-2, ACEA A3

## 2 Stroke

Lucas High Performance Semi-Synthetic 2 CYCLE Oil has been specifically developed to give a long trouble-free life to gasoline-powered 2-cycle engines. Designed for any oil injection system or pre mix up to 50:1. Use in Snowmobiles, Weed Eaters, Leaf Blowers, Chain Saws, and more. Lucas High Performance Semi-Synthetic 2 Cycle Racing Oil uses an advanced "Smokeless" formula specially blended from mineral oil, synthetic oil and a low ash additive package containing fortified dispersant inhibitors. It also contains exclusive detergents and lubricants. The end result of this advanced technology is a more thorough burning of the fuel resulting in more power and fewer emissions. Lucas ashless detergent inhibitor package minimizes spark plug fouling, pre-ignition, ring sticking and combustion chamber deposits. The user can expect cleaner exhaust ports and spark plugs, less carbon buildup on the piston rings, skirts, crown, and under crown areas.

### KEY BENEFITS

- Clean burning "Smokeless"
- Mixes well with gasoline at all temperatures
- Meets requirements for "low smoke" oils
- Low Ash
- Suitable for use in air-cooled engines
- Surpasses Mercury, Evinrude, and Johnson Motors requirements
- Expect longer ring life, less fuel consumption and no filter clogging
- Excellent rust protection during storage
- Prevents carbon deposits
- Prevents piston burning and corrosion caused by combustion residue
- Meets ISO GD and JASO FD, Exceeds API TC

L5001	SEMI SYN 2ST OIL 946ML
-------	------------------------

## 2 Stroke

Lucas High Performance Semi-Synthetic 2 CYCLE Land & Sea Oil has been specifically developed for Motorcycles, ATVs, Go Karts, Personal Watercraft, Outboards, Snowmobiles, Weed Eaters, and Chain Saws. Mix ratio is 50:1.

A "TRUE" Smokeless Formula, Lucas 2 Cycle Land & Sea Oil is specially formulated with high quality base oils fortified with a Lucas ashless detergent inhibitor package to minimize spark plug fouling, pre-ignition, ring sticking and combustion chamber deposits.

Primary Application: 2-Stroke Outboards and 2-Stroke Personal Water Craft.

### KEY BENEFITS

- Surpasses Mercury, Evinrude, and Johnson Motors requirements
- Expect longer ring life, less fuel consumption and no filter clogging
- Excellent rust protection
- Prevents piston and cylinder scuffing
- Meets or exceeds industry performance requirements.

L6001	LAND & SEA SEMI 2ST OIL 946ML

## ***Gear Oil – SAE 80W/85W Synthetic Transmission Oil***

Lucas SAE 80W/85W Transmission Oil is formulated with an exclusive additive system that surpasses or equals OEM grade oils and is used by pro AMA teams and riders.

### ***KEY BENEFITS***

- Light viscosity oil formulated for 2-stroke and 4-stroke transmissions and wet clutch systems that require an independent lubricant
- Synthetic formula contains Lucas unique additive system
- Provides the ultimate performance, improved shifting, clutch engagement and extended clutch life
- Reduces friction and drag
- Meets Honda Specifications

L8029	80W/85W SYN GEAR OIL 946ML
-------	----------------------------

## ***HYPROID – Heavy Duty 80W-90 Gear Oil***

Gear oils have needed improving for years, especially in the high performance industry.

The Lucas 80W-90 enjoys the technology Lucas developed in making the “Lucas Heavy Duty Oil Stabilizer”, the number one supplemental oil in the heavy duty industry.

This gear oil formula is fortified with special anti-wear agents and lubricity agents to control wear and drag as well as special additives to control heat.

These features are not found in ordinary gear oils. This gear oil is both excellent for racecars and any heavy-duty application where plain gear oils just aren't good enough.

### ***KEY BENEFITS***

- Contains special anti-wear and lubricity agents
- Helps to control heat
- Excellent for high performance and heavy-duty applications

## Foam Filter Oil

Foam Filter Oil improves air flow by repelling moisture and trapping dirt and dust. Its blue dye helps ensure even oil coverage across the entire filter.

### KEY BENEFITS

- Improves Air Flow
- Tacky Formula traps dust, dirt and sand
- Light viscosity, low solvent formula helps with penetration into foam filter. Stays in place throughout service life
- Waterproof formula blocks out moisture and water
- Will not clog foam filters.
- Blue dye helps ensure even oil coverage across the entire filter

## Motorcycle Oil Stabilizer

**'The # 1 selling Lucas Product!'**

Lucas designed this Motorcycle Oil Stabilizer to control heat and wear in high performance motorcycles. Excellent for reducing friction, increasing compression for enhanced fuel mileage. Eliminates dry starts, the #1 cause of wear in motorcycle engines. Also perfect for Harley Davidson's, ATV's, and UTV's. For use in Primaries and Gear Boxes.

### KEY BENEFITS

- 100% Petroleum
- Will not void new vehicle warranties
- Reduces temperature and friction
- Extends oil life up to 50%
- Increases oil pressure
- Increases fuel mileage and power
- Insures against oil breakdown in case of overheating
- Won't sludge or vanish

L9007

OIL STABILIZER 355ml

Lucas Oil

## Synthetic Fork Oils

This high performance synthetic Fork Oil provides more responsive handling and is compatible in all systems, including damping rods, cartridge, bladder, conventional and inverted forks.

### KEY BENEFITS

- More Responsive Handling
- Prevents Foaming
- Reduces Thermal Expansion
- Prevents Seal Hardening
- Prevents Static Friction
- Better Wear Protection
- Prevents Oxidation and Oil Thickening

## Shock Oil

Lucas Oil Products developed S1(2.5w) and S2(5w) Racing Shock Oil to provide exceptional viscosity stability, anti-friction and anti-foam properties for use in all high performance suspension systems. Applications include off road racing shocks, motocross, supercross, conventional & upside down forks, circle track racing, and more. Lucas specially formulated friction modifiers increase lubricity for minimum friction and for more responsive handling. Guaranteed to improve a narrow, consistent, rebounding range and easy suspension tuning.

### KEY BENEFITS

- Superior Damping
- Controls Heat
- Lower Operating Temperatures
- Excellent Thermal Stability
- Contains special anti-wear and lubricity agents
- Excellent for high performance and heavy-duty applications

L8004	S1 2.5w SYN SHOCK OIL 946ML
L8003	S2 5w SYN SHOCK OIL 946ML

## Chain Lube

Lucas Aerosol Chain Lube is a semi-synthetic spray lubricant designed to meet the demands of today's high performance motorcycle chains and sprockets. Tested by professionals and competitive race teams, Lucas Aerosol Chain Lube is perfect to keep your chain in perfect long lasting condition.

### KEY BENEFITS

- Designed to penetrate deeply into pins and bushing of the chains
- Foam facilitates penetration into chains
- Excellent rust and corrosion inhibitor, as well as water resistant
- Leaves protective film to ensure minimum wear and drag
- Suitable for use on all chains including O-ring types
- Low odor
- Minimizes sling off

L9004	SEMI SYN CHAIN LUBE 311g
-------	--------------------------

## Oil / Lube

Lucas Chain Lubricant was developed to be a long lasting, all weather, all temperature lubricant and protectant for chains, sprockets, cables and open gears. It is water resistant and contains Moly for extreme pressure situations. It should be applied to any nuts, bolts or components that are subject to long term exposure.

### KEY BENEFITS

- Water resistant
- Contains extreme pressure additives
- Superior protectant

L9150	CHAIN LUBE 946ML
-------	------------------

## Assembly Lube

Lucas High Performance Assembly Lube is designed for mechanics and technicians to pre lube bearings, cams, lifters and valve train. The Semi-Synthetic formula contains ZINC, MOLY and other high pressure additives which offer maximum protection during engine break-in. Super slick and easy to use, Lucas High Performance Assembly Lube will eliminate dry starts and prevent seizing galling and scuffing.

### KEY BENEFITS

- Eliminates Dry Starts
- Perfect For Engine Building
- Use To Pre Lube Bearings, Cams, Lifters and Valve Train
- Prevents Seizing Galling and Scuffing
- Compatible With All Oils
- Super Slick and Tacky
- Prevents Breakdown During Long Term Storage
- Contains ZINC, MOLY and Other High Pressure Additives
- Easy To Use

L9006	ASSEMBLY LUBE 4oz
-------	-------------------

## Grease

Virtually wash-out proof. Stands up to high temperatures and stays soft in very low temperatures. EP fortified and exceeds OEM specifications. Lucas X-Tra Heavy Duty Grease was formulated for automotive, agricultural, heavy-duty and industrial applications. It is virtually waterproof and is more stable than all conventional lithium grease. It is fortified with an extreme pressure additive package and it exceeds OEM Lube for Life specifications.

### KEY BENEFITS

- Lasts four times longer than regular grease
- Virtually waterproof
- All temperature stable
- Exceeds Lube for Life specifications
- The ultimate grease for high speed bearings

L9100

HD GREASE 450g

## Tool Box Buddy

Use on nuts, bolts, hinges, bearings, guns, fishing reels, sliding doors, motorcycle chains, or a million other home and shop uses where other products just aren't good enough.

### KEY BENEFITS

- Designed to dissolve corrosion and rust without drying
- Provides a microscopic film that rust proofs for up to a year inside or out
- Excellent protection against water, even salt water
- Low odor
- Fortified with anti-seize agents
- Easy to use can. Sprays anywhere, even upside down
- Contains no chlorine or fluorocarbons

L9001

TOOL BOX BUDDY 311g

## Octane Booster

### Increase your Octane by 4 RON!!

Lucas Octane Booster - A Real Octane Booster! Tested and proven to deliver three times more boost than most other brands. Lucas Octane Booster is a GENUINE Performance Enhancer! One 15 oz. bottle treats up to 25 gallons of fuel.

\*Not street legal.

#### KEY BENEFITS

- Safe for turbos, oxygen sensors and catalytic converters
- Suitable for use in fuel injected and carbureted engines
- Provides more boost than most other brands
- Promotes clean fuel burn for fewer emissions

L9003	OCTANE BOOSTER 59ml
L9002	OCTANE BOOSTER 444ml

## Fuel Treatment

Lucas Fuel Treatment is formulated for both gasoline and diesel engines, carbureted or fuel injected. It gives your fuel system what it really needs – a blend of super slick oils and additives with a high detergent action that allows the engine to operate at maximum efficiency.

Also, it cleans and lubricates the carburetor and injectors and causes the fuel to burn more thoroughly for increased power and less fuel consumption.

Lucas Fuel Treatment should definitely be used in vehicles that require leaded fuel because it actually replaces the benefits of lead in gasoline without causing harmful emissions. Use it to pass smog tests. Finally, it totally neutralizes the harmful effects of low sulfur diesel fuel.

#### KEY BENEFITS

- A great tune-up in a bottle
- Cleans and lubricates the fuel system
- Neutralizes low sulfur fuel problems
- Increases power and miles per gallon by burning excess exhaust emissions
- Increases the life of pumps and injectors

L9020	FUEL TREATMENT 155ml
-------	----------------------

## Fuel Stabilizer

A better solution to prevent fuel breakdown during storage. Safe to use in all grades of fuel and in all 2 and 4 stroke engines. Easy to use easy application.

Cleans lubricates and maintains fuel pumps, carburetors, fuel injectors and compression rings.

### KEY BENEFITS

- A better solution to prevent gasoline break-down during storage.
- Safe to use in all grades of gasoline and in all 2 and 4 cycle engines.
- Easy to use! Application rate, 1 oz. to treat 1 gallon

L9008

FUEL STABILIZER 444ml

**COLE SEELY**

Lucas Oil Troy Lee Honda

## Super Coolant

Lucas Super Coolant has been scientifically formulated to provide the ultimate protection in automotive and racing cooling systems. It protects the entire system from rust, corrosion and electrolysis including aluminum.

Our unique formula prevents deposits that can cause overheating, and has been proven to reduce coolant temperatures up to 20°F.

Lower cylinder head temperatures mean advanced ignition and more horsepower.

### KEY BENEFITS

- Lower cylinder head temps
- Allow advanced ignition, timing and more horsepower
- Reduce operating temperatures by up to 20°
- Prevents corrosion, electrolytes and deposits that cause leaks, overheating, and cooling system failures

L7001

SUPER COOLANT 473ml

## Polish

Lucas Oil Slick Mist is a polymer paint gloss intensifier, which can be used on other surfaces such as glass, chrome and vinyl decals.

Use Slick Mist as a traditional wax, quick detail spray or spray it on your vehicle between rinsing and drying for the easiest polish job ever.

That's right! Just spray it on a wet or dry surface and wipe it off. Slick Mist out performs the competition and will leave your finish slicker and shinier than any product on the market, with long lasting protection. You and Slick Mist can give any machine an extreme gloss fast!

### KEY BENEFITS

- Premium Paint Gloss Intensifier
- Great for Cars, Trucks, Boats, Motorcycles, and Airplanes
- Shines and Protects in One Easy Application
- Excellent Results on Chrome, Glass & Vinyl Decals
- Use on Wet or Dry Surfaces
- Quick and Easy
- Ease of Application

L9009	SLICK MIST POLISH 237ml
-------	-------------------------

## Metal Polish

Lucas Metal Polish cleans, polishes and protects aluminium and other metals. It has built-in enhancement elements that help to prolong and protect the treated surface from fading, oxidation or tarnishing.

Maximum luster with minimum effort.

### KEY BENEFITS

- Simple to Use
- Safe on all Metals
- Fast Acting
- No Acid
- No Ammonia

L9005	LUCAS METAL POLISH 473ml
-------	--------------------------

## Contact Cleaner

Lucas Contact Cleaner is blended with a unique blend of solvents, cleaning agents and propellants designed to remove oil, dirt and moisture from contact points.

Lucas Contact Cleaner is compatible with metals and elastomers. It is especially effective in motorcycle applications to clean electrical parts that have been exposed to high levels of oil, dirt and debris.

This non-chlorinated, CFC free 45% VOC requirement for electrical contact cleaner formula dries quickly and leaves no residue.

Read entire label before using this product.

### KEY BENEFITS

- Removes Oil, Dirt and Debris
- Quick Drying Formula
- Leaves No Residue
- Race Proven
- Compatible With Metals and Elastomers

L9010	LUCAS CONTACT CLEANER 397g
-------	----------------------------

## Product R&D

Lucas Oil Products has developed many new and innovative products in 2009. One reason for our successful launching of these products is the building of our new state of the art laboratory. Our new laboratory was completed in October of 2008.

Since that time we have improved our testing capabilities significantly. When we develop a new product we carefully choose the base oils and additive systems to create the highest quality and highest performing lubricant/fuel treatment. Our technical staff has a tremendous amount of research and development experience and we use this experience to remain the leader in the aftermarket and fully compounded arena. We pride ourselves in not only meeting specifications but exceeding them. We have the capability of measuring kinematic viscosity at 40 and 100°C, determining flash points of extremely flammable, flammable, and combustible materials, determining metals in new and used oils with our X-Ray Florescence. We also use Infrared spectroscopy for quality control, technical service, reverse engineering and new product development. We additionally have foam testing capabilities, cold temperature testing capabilities for multi-grade engine oils and have a state of the art table top density meter to determine pounds per gallons of finished products and incoming raw materials.

**Quality is the #1 priority here at Lucas Oil Products. If it is Lucas, it works!**

## Lucas Oil Stadium – Home Of The Indianapolis Colts –

Lucas Oil Products, the California-based motor sports industry leader with strong ties to Indiana, secured naming rights from the Indianapolis Colts for the state of the art stadium, at a cost of \$122 million over 20 years.

The LUCAS OIL Stadium was the star attraction of the 2012 NFL Super Bowl.
